

Portfolio responsibilities

We continue to work hard to ensure that the District remains a clean and beautiful place to live, work and visit, as a result

of the continued efforts made to protect the quality of our local environment.

We know one of the most important services we provide to all our residents is recycling and waste collection. Our aim is to continually improve the amount of recycling being undertaken by local households. We are going to invest significantly in our recycling operations, to meet our residents' aspirations for a simpler collection method.

Key Priorities and Projects

- Continue to improve recycling rates.
- Roll out our fortnightly green waste collections across the whole District.
- Implement the Council's decision to move to a simpler co-mingled recycling collection method.
- Use promotion and education activities to encourage recycling.
- Ensure the JTP improves services for customers whilst reducing costs.

Representing the Council

I am the Council's representative on

- Impact Seaford
- Joint Waste Committee

Key strategies and plans

- Waste Review and Strategy
- East Sussex Sustainable Waste Strategy
