

Date Provided: 28 November 2017

Privately owned tower blocks

Ref: FOI / 5977

Information Request

Please can you send me a list of privately owned residential tower blocks (6 storeys and above) in your council area.

Please also include information on any cladding that is on the buildings and if this is made of aluminium composite material, if you have this information.

Response by Lewes District Council

Lewes District Council does not hold a list of privately owned residential tower blocks over six storeys or more but can report that, following work undertaken by the fire brigade, there are none within our district which have aluminium composite material cladding.
