Temporary Accommodation

Ref: EFOI / 7463

Information Request

Please can you tell me, individually for the financial years 2015-16, 2016-17 and 2017-18, the council's total spending on hotel rooms to house people under its obligations to provide temporary accommodation.

If possible can you also provide information for each year detailing either the number of hotel nights paid for by the council over each year, and the number of stays which involved a family with at least one child (or, if this information is available, the number of stays which required more than one room per case.

And clarification -

Yes please also include B&Bs, many thanks

The council does not separate the figures for temporary accommodation whether it be hotels, B&B or other so these are the overall figures. The council also does not keep a separate record of the number of nights or number of children.
