Community hubs and district and borough councils

Community hubs are the contact point that residents of East Sussex can turn to during the coronavirus pandemic if they:

- feel they need extra help in coping with the effects of coronavirus and don't have trusted family, friends or neighbours who could help them,
- know someone else who needs help.

Anyone who feels they need extra support, for example help with getting hold of food, medicines and other essentials, and has no other way to get it can use a hub. Visit www.eastsussex.gov.uk/coronavirus to read more about what the community hubs can help with.

You can contact your nearest community hub through your district or borough council. See page 3 for details.

You can also visit www.eastsussex.gov.uk/coronavirus-food for information and advice on food shopping, delivery and affording food.

The community hubs are a partnership between the community and voluntary sector, health service, county council and district and borough councils in East Sussex.

District and borough councils also provide a range of other services including:

- rubbish collection.
- environmental health.
- housing-needs services. If you or someone you know is homeless or about to become homeless, you should contact the housing office at your local district or borough council.
- collection of council tax.
