## Introductory note

*This introductory note does not form a part of the Permit*

The following Permit is issued under Regulation 13 of the Environmental Permitting (England and Wales) Regulations 2016 (S.I. 2016 No. 1154) (“the EP Regulations”) to operate an installation carrying out one or more of the activities listed in Schedule 1, Part 2, Part B of those Regulations, to the extent authorised by the Permit.

The Permit includes conditions that have to be complied with. It should be noted that aspects of the operation of the installation which are not regulated by specific conditions are subject to the Best Available Techniques condition placed in the permit, that the Operator shall use the best available techniques for preventing or, where that is not practical, reducing emissions from the installation.

Please note techniques include both the technology used and the way in which the installation is designed, built, maintained, operated and decommissioned.

### Brief description of the installation regulated by this permit

**Installation for Powder Coating** as prescribed by Section 6.4 Part B (a) (i) of Schedule 1 of the Environmental Permitting (England and Wales) Regulations 2016. The installation activities include water based degreasing and etching; epoxy and polyester based powder coating. Powder coating is principally applied automatically by spray guns within the ITW Gema automatic spray booth fitted with cyclone and cartridge filtration. Extracted air is exhausted internally. Curing is undertaken within the tunnel oven fired on natural gas.

Process Guidance Note 6/31(13) Statutory Guidance for Powder Coating including Sherardizing & Vitreous Enamelling Dry Process

### Confidentiality

The Permit requires the Operator to provide information to Lewes District Council. The Council will place the information onto the public registers in accordance with the requirements of the EP Regulations. If the Operator considers that any information provided is commercially confidential, it may apply to Lewes District Council to have such information withheld from the register as provided in the EP Regulations. To enable Lewes District Council to determine whether the information is commercially confidential, the Operator should clearly identify the information in question and should specify clear and precise reasons.

### Variations to the permit

Your Attention is drawn to the Variation Notification Procedure condition in the Permit. This Permit may be varied in the future. If at any time the activity or any aspect of the activity regulated by the following conditions changes such that the conditions no longer reflect the activity and require alteration, the Regulator should be contacted.

## Lewes District Council

### **Surrender of the permit**

Where an Operator intends to cease the operation of an installation (in whole or in part) the regulator should be informed in writing. Such notification must include the information specified in regulation 24, or in accordance with Regulation 25 of the EP Regulations for Permits to which Regulation 24 does not apply.

### **Transfer of the permit or part of the permit**

Before the Permit can be wholly or partially transferred to another person, a joint application to transfer the Permit has to be made by both the existing and proposed holders, in accordance with Regulation 21 of the EP Regulations. A transfer will be allowed unless the Authority considers that the proposed holder will not be the person who will have control over the operation of the installation or will not ensure compliance with the conditions of the transferred Permit.

### **Responsibility under workplace health and safety legislation**

This Permit is given in relation to the requirements of the EP regulations. It must not be taken to replace any responsibilities you may have under Workplace Health and Safety legislation.

### **Appeal against permit conditions**

Anyone who is aggrieved by the conditions attached to a Permit can appeal to the Appropriate Authority, (Secretary of State for the Environment, Food and Rural Affairs, in England and the Welsh Ministers in Wales) Appeals must be made in accordance with the requirements of Regulation 31 and Schedule 6 of the EP Regulations.

Appeals should be received by the Secretary of State for Environment, Food and Rural Affairs or the Welsh Ministers at the following addresses:

The Planning Inspectorate  
Environment Team, Major and  
Specialist Casework  
Room 4/04 Kite Wing  
Temple Quay House  
2 The Square  
Temple Quay  
Bristol BS1 6PN

Or for appeals in Wales:

The Planning Inspectorate  
Crown Buildings  
Cathays Park  
CARDIFF  
CF10 3NQ

### **Please Note**

An appeal brought under Regulation 31 and Schedule 6, in relation to the conditions in a permit will not suspend the effect of the conditions appealed against; the conditions must still be complied with.

In determining an appeal against one or more conditions, the Act allows the Secretary of State in addition to quash any of the other conditions not subject to the appeal and to direct the local authority either to vary any of these other conditions or to add new conditions.

Our enforcement of this Permit will be in accordance with the Regulators' Compliance Code. A copy is on the Business, Innovation and Skills Department website: <http://www.bis.gov.uk/files/file45019.pdf>.

## CONDITIONS

### EXTENT AND LIMIT OF THE INSTALLATION

#### 1. The Permitted Installation

1.1 The Operator is authorised to carry out the activities and/or associated activities specified in **Table A**.

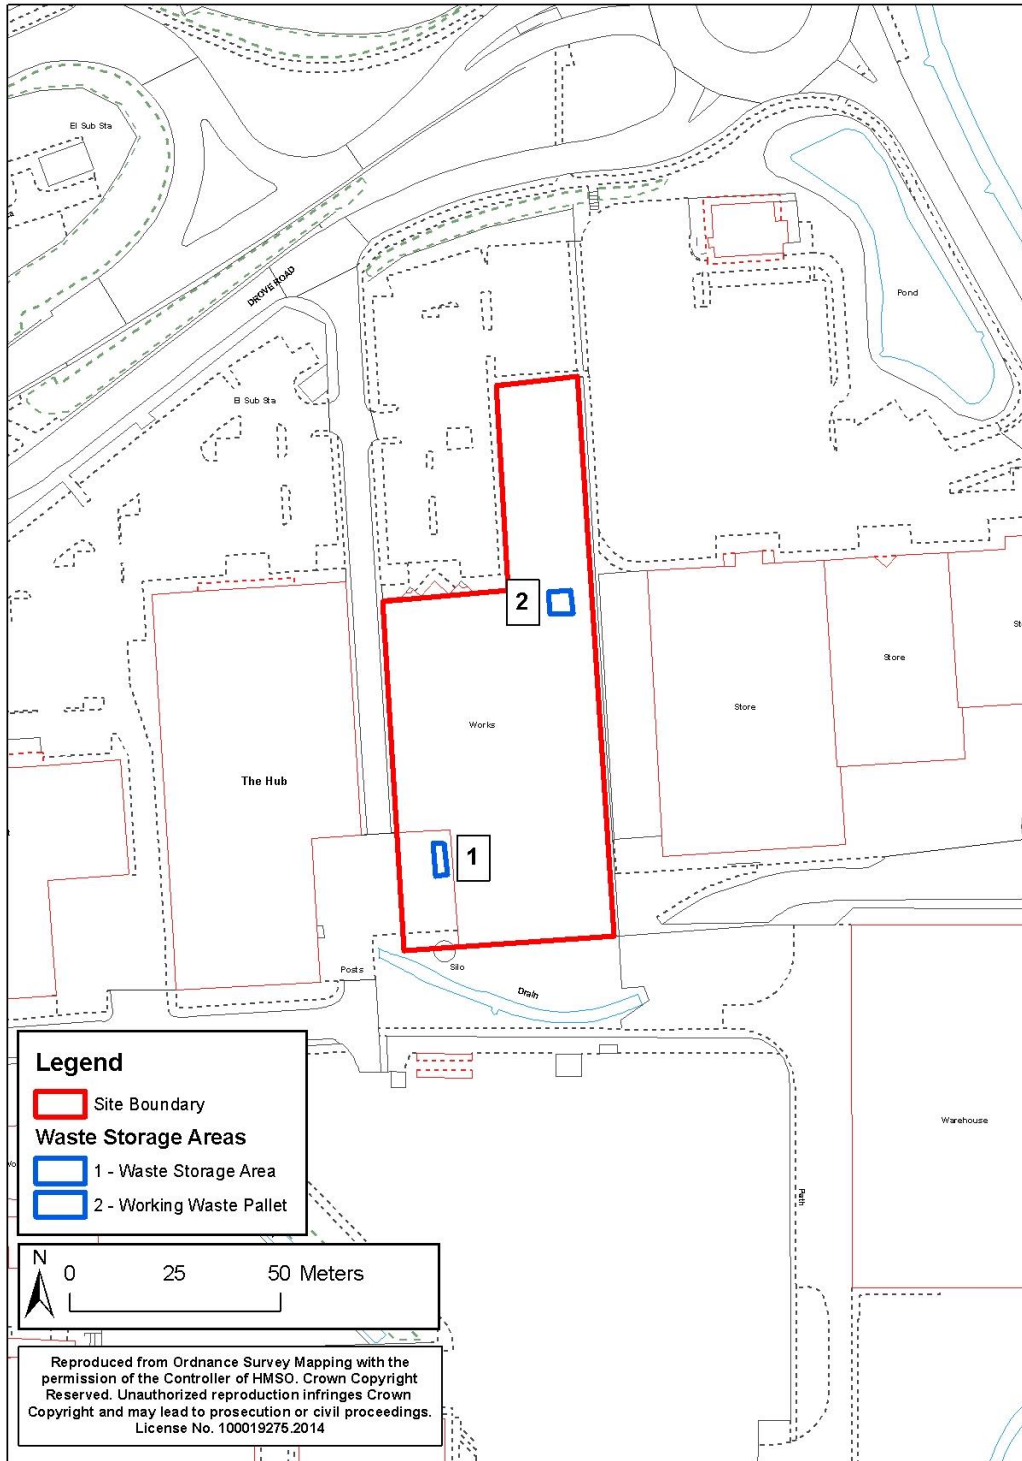

<b>Table A – Activities &amp; Associated Activities</b>			
<b>Activities under Schedule 1 of the Regulations/Associated Activity</b>	<b>Description of specified activity</b>	<b>Schedule 1 activity Reference (if Applicable)</b>	<b>Limits of specified activity</b>
Pre-treatment of substrate.	Degreasing of substrate using aqueous solution.	Directly associated activity	Within the degreasing tank and site boundary outlined in condition 1.2 below only.
Application, drying and curing of solid paint to substrate.	Application, drying and curing of paint powder to substrate.	Section 6.4 part B (a) (i).	Within the site boundary outlined in condition 1.2 below only.
Storage and handling of raw materials and waste.	Storage of paint powder.	Directly associated activity	Within the site boundary outlined in condition 1.2 below only.

**Lewes District Council**

- 1.2 The operator is authorised to carry out the activities and/or associated activities as specified within the boundary shown in red on the plan below: -

**SITE PLAN**

## Lewes District Council

### Emissions

2. No visible particulate matter shall be emitted beyond the installation boundary.

### Process controls

3. Odour emissions shall be minimised by:
  - controlling oven temperatures;
  - controlling acid fume emissions;
  - not using curing ovens to clean jigs.

### Bulk, loose, dry material - storage and loading

4. Dusty materials (including dusty wastes) shall only be stored in storage locations as detailed on the plan in condition 1.2 and their storage and transfer shall be subject to suppression and management techniques to minimise dust emissions. No potentially dusty materials (including wastes) or finished products shall leave the site other than by use of a specialist licensed waste contractor with all pallets shrink wrapped and waste double bagged.

### Monitoring provisions

5. The emission requirements and methods and frequency of monitoring set out in **Table B** shall be complied with.
6. Any monitoring display required for compliance with the permit shall be visible to operating staff at all times. Corrective action shall be taken immediately if any periodic monitoring result exceeds a limit in **Table B**, or if there is a malfunction or breakdown of any equipment which might increase emissions. Monitoring shall be undertaken or repeated as soon as possible thereafter and a brief record shall be kept of the main actions taken.
7. All plant and equipment capable of causing, or preventing, emissions and all monitoring devices shall be calibrated and maintained in accordance with the manufacturer's instructions. Records shall be kept of such maintenance.
8. The operator shall, in the case of abnormal emissions, inform the regulator without delay if there is an emission likely to have an effect on the local community.

### Records and training

9. Written or computer records of all tests and monitoring shall be kept by the operator for at least 24 months. They shall be made available for examination by the Regulator. Records shall be kept of operator inspections, including those for visible and odorous emissions.
10. Staff at all levels shall receive the necessary training and instruction to enable them to comply with the conditions of this permit. Records shall be kept of relevant training undertaken.

**Lewes District Council**

**Best Available Technique and Variation Procedure**

11. The best available techniques shall be used to prevent, or where that is not practicable, reduce emissions from the installation in relation to any aspect of the operation of the installation which is not regulated by any other condition of this permit.
12. If the operator proposes to make a change in the operation of the installation, he must, at least 14 days before making the change, notify the regulator in writing. The notification must contain a description of the proposed change in operation. It is not necessary to make such a notification if an application to vary this permit has been made and the application contains a description of the proposed change. In this condition “change in operation” means a change in the nature or functioning, or an extension, of the installation, which may have consequences for the environment.

**Lewes District Council**

**Table B – Emission limits, monitoring and other provisions**

Row	Substance	Source	Emission limits/provisions	Type of monitoring	Monitoring frequency
1	Droplets, persistent visible emissions	All release to air (except steam and condensed water vapour).	No droplets, no persistent visible emissions.	Visual observations	Monthly
