Executive Summary

- (i) The Planning and Compulsory Purchase Act 2004 introduced the requirement for local planning authorities (LPAs) to produce an Annual Monitoring Report in order to monitor policy implementation and progress made against the Local Development Scheme (LDS).
- (ii) Under the Localism Act 2011 an Annual Monitoring Report is now referred to as an Authority Monitoring Report (AMR). Previous Government guidance on monitoring indicators has been revoked and superseded by new Planning Regulations. Although these regulations prescribe certain information that these AMRs need to contain, there is significant scope for LPAs to determine what indicators to include.
- (iii) The Core Strategy Monitoring Framework, which contains specific targets and indicators, has been developed for the Core Strategy and forms the basis of the AMR. There are just over 60 indicators. To supplement this monitoring framework there are indicators identified in the Local Plan Part 2, adopted in February 2020.
- (iv) This is the sixteenth monitoring report that Lewes District Council has produced, the sixth with indicators from the Core Strategy Monitoring Framework and it covers the monitoring year 2020/21. Updates against indicators between April 2020 and publication are provided where relevant and this would be set out in the commentary.
- (v) The key findings of the report are summarised below:
 - a. The Joint Core Strategy (Local Plan Part 1) was adopted in May 2016. The Local Plan Part 2: Site Allocations and Development Management Policies was adopted in February 2020. The LDS was revised in July 2020 to include a timetable for the update of the Local Plan¹.
 - b. There are currently 12 designated neighbourhood areas in Lewes District (2 of which are wholly or mostly within the South Downs National Park (SDNP)). Nine Neighbourhood Plans have been formally 'made' by Full Council following examination and successful referendum: Newick, Ringmer, Hamsey, Wivelsfield, Plumpton, Ditchling, Streat & Westmeston, Newhaven, Seaford and Chailey. Monitoring frameworks have been developed for each neighbourhood plan and are included within the AMR. As the Chailey Neighbourhood Plan was 'made' in May 2021, a monitoring framework and associated commentary has not been included as it falls with next years monitoring period (April 2021 - March 2022)
 - c. Local Authorities are now required under amendments (The Community Infrastructure Levy (Amendment) (England) Regulations 2019 No.1103 that came into force 1 September 2019) to produce an Infrastructure Funding Statement (IFS) annually that sets out details about planning obligation

¹ https://www.lewes-eastbourne.gov.uk/_resources/assets/inline/full/0/274133.pdf

receipts and anticipated expenditure. This is to provide clarity and transparency to local communities and developers on the infrastructure and expenditure and in aligning this to planned development, as envisaged in the Local Plan. Therefore it is not considered necessary to provide commentary on Community Infrastructure Levy (CIL) in this AMR. The IFS will be published separately to this AMR and will be available on the Lewes District Council website from the 31st December 2021.

- d. Unfortunately the Cambridge Model Survey which provides data on the impact of tourism on the District's economy has not been available to date, therefore the AMR cannot report on the contribution to the District's economy made by visitors or the number of jobs available in the district in the tourism industry.
- e. The Council did not publish an updated housing land supply figure in the monitoring period and instead postponed publishing the note until 11th May 2021 as LPP1 reached its 5th anniversary since adoption on this date. Overall housing completions have seen an increase from the previous year and there has been a net gain in the amount of floorspace developed for employment land.
- f. The progress of sustainability targets has been difficult to analyse this year as updated data is often unavailable and/or unreliable. Given sustainability targets are a Corporate Objective, it is hoped that the introduction of the Technical Advice Note on Sustainability in Development published earlier this year, will improve sustainable design and construction methods proposed in applications, and will enable easier and more reliable monitoring of sustainability objectives.

1. Introduction

- 1.1. Each Local Planning Authority (LPA), under Section 35 of the Planning and Compulsory Purchase Act 2004, is required to monitor and report the work of the authority through an Authority Monitoring Report (AMR). It allows communities to know how planning is affecting the area they live, work and study in. It is central to the Council's overall consideration of how it is performing and where to focus efforts in the future.
- 1.2. Part 8, *Authorities' monitoring reports*, Regulation 14 of the Town and Country Planning (Local Planning) (England) Regulations 2012 (hereafter 2012 Regulations) sets out the information which must be contained within the Authority's report, including:
 - *Timetable and progress of any local plan and supplementary planning documents outlined within the Council's Local Development Scheme (including reasons for any delay and the date of any approved or adopted documents);*
 - *Progress made against policies where an annual number is specified;*
 - *Details of any neighbourhood development order or neighbourhood development plan within the local planning authority area;*
 - *Information of Community Infrastructure Levy (CIL) receipts or expenditure undertaken by the Council as local charging authority;*
 - *Details of actions under section 33A (Duty to Co-operate) of the Act made by the local authority.*
- 1.3. A Monitoring Framework has been developed as part of the Core Strategy to monitor the effectiveness of the policies therein to delivering the overarching aims and objectives of the Core Strategy. The Local Plan Part 2, adopted in February 2020 introduced two new indicators related to progress on emerging neighbourhood plans (reported in section 3) and the use and management of the Reedens Meadow Suitable Alternative Natural Greenspace (SANG) at Newick.
- 1.4. This AMR principally covers the monitoring period 1 April 2020 to 31 March 2021. However, where appropriate, progress on monitoring indicators in key areas of policy work after these dates are also included within this report. Information provided from 31 March 2021 onwards will be noted in the text.

Structure of this report

- 1.5. [Section 2](#) reports on the latest progress made in producing key policy documents outlined within the Council's LDS and [Section 3](#) monitors the advancement of Neighbourhood Planning. [Section 4](#) outlines the position of the Council's Duty to Co-operate.
- 1.6. Previously the AMR included a section on CIL monitoring reporting. However Local Authorities are now required under amendments to regulations (The Community Infrastructure Levy (Amendment) (England) Regulations 2019 No.1103 that came into force 1 September 2019) to produce an IFS annually that sets out details about planning obligation receipts and anticipated expenditure. This is to provide clarity and transparency to local communities and developers on the infrastructure and expenditure and in aligning this to planned development, as envisaged in the Local Plan. The IFS will be published separately to this AMR and will be available on the Lewes District Council website from the 31st December 2021. There is basic information on CIL contained within Table 23 including amount of CIL fund received.
- 1.7. [Section 5](#) reports on the data collected for the purpose of the Self-build and Custom Housebuilding Register.
- 1.8. [Sections 6, 7](#) and [8](#) assess the performance of the spatial, core and neighbourhood planning policies against the monitoring targets and indicators. A summary and comparison with previous AMR's can be found in [Section 9](#). [Section 10](#) provides an update on the status of the 'saved' and 'retained' 2003 Local Plan Policies.

Core Strategy Monitoring Indicators

- 1.9. The Core Strategy contains spatial and core policies to guide new development and address the district's identified key issues and challenges. Targets have been set against each of the core policies. To monitor the delivery and performance of these policy targets a set of indicators have been produced.
- 1.10. There are a number of indicators for which new data has not been available for the past two monitoring years. This means the AMR is unable to provide meaningful comparable data. If new data is not available for the next monitoring year and/or a revised method to monitor relevant indicators cannot be found then the indicator may need to be reviewed.
- 1.11. Sections 6-9 outline each of the proposed monitoring indicators for the Core Strategy, and Neighbourhood Plans, as well as the current performance against these indicators where the data is available. The table below illustrates how this information is set out.

Table 1 Example policy indicator table

<div> <div>CORE POLICY 9</div> <div>Air Quality</div> <div> ➤ Objective 7 ➤ Objective 8 </div> </div>			
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
10a. To reduce the total number of Air Quality Management Areas (AQMAs)	(i) Number of Air Quality Management Areas	2016: 2 (Lewes Town Centre and Newhaven Town Centre)	↔

- 1.12. A summary table of all the indicators is provided in [Section 9](#). This offers a quick reference as to how each of the indicators is performing against the proposed target. A quick comparison can also be made to the previous year's AMR data.

2. Local Development Scheme

- 2.1. This section considers whether the timetable and milestones for the preparation of documents listed in the LDS are being met, as required by the Section 34(1) of the 2012 Regulation.
- 2.2. For the purposes of the monitoring year April 2020 - March 2021, the Council had a fully up-to-date Local Plan, comprising the Lewes District Local Plan Part 1: Joint Core Strategy (adopted May 2016) and the Lewes District Local Plan Part 2: Site Allocations and Development Management Policies (adopted February 2020).
- 2.3. Paragraph 33 of the NPPF states that policies in local plans and spatial development strategies should be reviewed to assess whether they need updating at least once every five years. In May 2021 it had been 5 years since the Local Plan Part 1 was adopted and the Council has therefore commenced upon a review and update of its strategic policies.
- 2.4. Lewes District Council are now preparing a new Local Plan to cover the period 2019-2039. The strategic policies in the new Local Plan will set out an overall strategy for the pattern, scale and quality of development.
- 2.5. The timetable for the key stages of preparation for the new local plan are set out below as taken from the latest approved LDS².
- 2.6. There was a slight delay in publication of the 'Issues and Options' consultation from Spring to Summer 2021. This, along with evidence requirements taking longer than expected to be completed, resourcing (staff) issues, and the impacts of the Covid-19 pandemic, have meant the publication of the 'Preferred Options' document has not taken place as anticipated. The LDS will be updated in due course to reflect the likely timetable of the Local Plan.

Table 2 Timetable and milestones of the preparation of document in the LDS

DOCUMENT	LDS MILESTONE	TARGET DATE	DATE ACHIEVED
Local Plan Part 1 Review	Community and stakeholder engagement on 'Issues and Options' (Regulation 18)	Spring 2021	9 th July 2021 – 3 rd September 2021
	Consultation on the 'Preferred Options' document (Regulation 18)	Autumn 2021	

² The latest Lewes LDS was approved in July 2020 <https://www.lewes-eastbourne.gov.uk/planning-policy/local-development-scheme/>

	Publication of the Proposed Submission Document (Regulation 19)	Autumn 2022	
	Submission to Secretary of State	By or before Winter 2023	
	Adoption	By or before Winter 2023	

Other Local Development Documents

- 2.5 The Council adopted its latest Statement of Community Involvement (SCI)³ on 20 July 2020. The SCI sets out the Council's approach to consulting the local community and other stakeholders on planning matters.

³ <https://www.lewes-eastbourne.gov.uk/planning-policy/statement-of-community-involvement/>

3. Neighbourhood Planning

- 3.1. This section is based on the most recent information available. Therefore this section of the report includes information which occurred after 31st March 2021.
- 3.2. Following the introduction of Neighbourhood Planning with the Localism Act 2011 and the Neighbourhood Planning Regulations 2012, 12 Neighbourhood Areas have been designated in the District, two of which are either entirely or mostly within the SDNP (Lewes and Ditchling, Streat & Westmeston) and the others are predominantly outside the Park's boundary. The stages of the designated areas in developing their Neighbourhood Plans are shown in the table below.

Table 3 Neighbourhood Plan Status

DESIGNATED AREAS	DATE DESIGNATED	NEIGHBOURHOOD PLAN STATUS
Hamsey	01/10/12	'Made' by LDC on 21 st July 2016
Newick	01/10/12	'Made' by LDC on 16 th July 2015
Ringmer	01/10/12	'Made' by LDC on 25 th February 2016
Peacehaven and Telscombe	17/06/13	Timetable provided below. Pre-Submission Consultation (Regulation 14) anticipated in January 2022.
Wivelsfield	17/07/13	'Made' by LDC on 7 th December 2016
Newhaven	08/07/13	'Made' by LDC on 27 th November 2019.
Ditchling, Streat and Westmeston (SDNPA)	28/01/14	'Made' by LDC on 2 nd May 2018.
Plumpton	28/04/14	'Made' by LDC on 2 nd May 2018.
Lewes (SDNPA)	08/05/14	'Made' by the SDNPA on 11 th April 2019.
Barcombe	09/01/15	The Neighbourhood Planning process has stopped in the early stages of preparation.
Chailey	17/03/15	'Made' by LDC on 27 th May 2021
Seaford	13/01/16	'Made' by LDC on 24 th February 2020.

- 3.3. In this monitoring year, there have been no neighbourhood plans 'made', the Chailey Neighbourhood Plan has been 'made' after then end of this monitoring period.
- 3.4. For reference, the tables below summarise the timescale of each emerging Neighbourhood Plan wholly or predominantly outside of the South Downs National Park and provides up to date information outside of the reporting period.

Table 4 Barcombe Neighbourhood Plan Timescale

STAGE	PROGRESSION - DATE ACHIEVED	
Designation of Neighbourhood Area	✓	9 th January 2015
Pre-Submission Consultation (Regulation 14)	-	-
Submission to LDC (Regulation 15)	-	-
Submission to Independent Examination (Regulation 17)	-	-
Referendum	-	-
'Made'	-	-

Table 5 Peacehaven and Telscombe Neighbourhood Plan Timescale

STAGE	PROGRESSION - DATE ACHIEVED	
Designation of Neighbourhood Area	✓	17 th June 2013
Pre-Submission Consultation (Regulation 14)	Anticipated	January 2022
Submission to LDC (Regulation 15)	Anticipated	April 2022
Submission to Independent Examination (Regulation 17)	Anticipated	September 2022
Referendum	Anticipated	December 2022
'Made'	Anticipated	February 2023

Table 6 Chailey Neighbourhood Plan Timescale

STAGE	PROGRESSION - DATE ACHIEVED	
Designation of Neighbourhood Area	✓	17 th June 2015
Pre-Submission Consultation (Regulation 14)	✓	May-June 2019
Submission to LDC (Regulation 15)	✓	December 2019
Submission to Independent Examination (Regulation 17)	✓	May 2020
Referendum	✓	6th May 2021
'Made'	✓	27th May 2021

- 3.5. The Neighbourhood Plans 'made' prior to the bringing in to force of Section 3 of the Neighbourhood Planning Act 2017 (19th July 2017) attained the same legal status as the Core Strategy and became part of the statutory development plan from that 'made' date. Neighbourhood Plans that have succeeded at referendum become part of the statutory development plan from that date and attain legal status from the date adopted by the Council.
- 3.6. Applications for planning permission must be determined in accordance with the development plan unless material considerations indicate otherwise. Section 70(2) of the Town and Country Planning Act 1990 (as amended) provides that when determining applications, regard must be had to post-examination draft Neighbourhood Plan, so far as it is material to the application.
- 3.7. Details of any adopted Neighbourhood Plans, or Neighbourhood Development Orders, will be reportable in AMRs in conformity with Regulation 34(4) of the 2012

Regulations. Indicators and figures can be found under Section 8 of this report. This AMR reports on the 'made' Neighbourhood Plans within Lewes District at the time of publication. The monitoring of any outcomes of the Ditchling, Streat & Westmeston Neighbourhood Plan and the Lewes Neighbourhood Plan will be the responsibility of SDNP.

- 3.8. Latest information on Neighbourhood Area designations and Neighbourhood Planning can be found on the Council's [Neighbourhood Plan website page](#).

4. Duty to Cooperate

- 4.1. Regulation 34(6) of The Town and Country Planning (Local Planning) (England) Regulations 2012 is concerned with the Duty to Co-operate and requires that “*where a local planning authority have co-operated with another local planning authority, county council, or a body or person prescribed under section 33A of the Act, the local planning authority’s monitoring report must give details of what action they have taken during the period covered by the report.*” This section of the report sets out such details for the period from when the Duty to Co-operate was enacted (November 2011) up until March 2021.
- 4.2. The duty to co-operate was created through the Localism Act 2011. It places a legal duty on local planning authorities, county councils in England, and public bodies to engage constructively, actively and on an ongoing basis to maximise the effectiveness of Local Plan preparation in the context of strategic cross boundaries matters. The duty to co-operate is not a duty to agree. However, local planning authorities should make every effort to secure the necessary co-operation on strategic boundary matters, in particular before they submit their Local Plans for examination.

Context to the duty to co-operate

- 4.3. Lewes District is a coastal authority in East Sussex. The district is bordered by Wealden District Council to the east and by Mid Sussex District Council and Brighton and Hove City Council to the west.
- 4.4. Lewes District is within a two-tier authority area, with East Sussex County Council providing a number of public services in the area including education, highways and social services. Approximately 56% of Lewes District is within the SDNP; the SDNPA are the planning authority for this area.
- 4.5. Lewes District has an important relationship with many of its surrounding areas. In the northern part of the district, many residents access services, facilities and employment in places such as Uckfield, Burgess Hill and Haywards Heath. A similar situation applies to the south of the district where a strong relationship exists with Brighton and Hove (and the coastal towns to the west, albeit to a lesser extent) and towards Eastbourne in the east. For all of these areas, Lewes District has common housing and labour market areas. In particular, there are significant levels of household migration and travel to work movements between Lewes District and Brighton and Hove.

Cooperation undertaken

- 4.6. A [detailed report](#) of co-operation undertaken in relation to strategic planning policy was submitted to the LPP1 examination in public in September 2014. Many elements of the co-operation set out in the Compliance Statement involved on-going collaborative working and engagement. The Examination Inspector concluded that

the District Council had complied with the duty to co-operate, as set out in his Final Report published in March 2016⁴.

- 4.7. The LPP2 policies are non-strategic and consequently the District Council was generally not required to co-operate further with the specific Duty to Co-operate bodies. Nevertheless, local planning authorities are bound by the statutory duty to co-operate where strategic issues have arisen since the adoption of LPP1. These issues are documented in the District Council's Duty to Co-operate Statement⁵. The Examination Inspector concluded that the Council had met the duty to co-operate in relation to the preparation of the LPP2, as set out in his final report published in December 2020⁶.
- 4.8. As the District Council are now working towards preparation of a new local plan the summary below relates to ongoing co-operation over the monitoring period, in relation to the review of LPP1 or the preparation of the new local plan.

Table 7 Summary of co-operation undertaken with other organisations

ORGANISATION	SUMMARY OF CO-OPERATION SINCE NOVEMBER 2011
South Downs National Park Authority (SDNPA)	<p>Statements of common ground prepared and signed with Lewes District Council in relation to the disaggregation of the LPP1 housing requirement figure (20 December 2018) and on providing for the accommodation needs of Gypsies, Travellers and Travelling Showpeople.</p> <p>A statement of common ground in relation to the Ashdown Forest signed with Lewes District Council, Eastbourne Borough Council, Tunbridge Wells Borough Council, Mid Sussex District Council, Tandridge District Council, Crawley Borough Council, Sevenoaks District Council, Rother District Council, East Sussex County Council, West Sussex County Council and Natural England.</p> <p>Joint work with other East Sussex authorities on the 2021 Gypsy and Traveller Accommodation Needs Assessment 2021.</p>

5. Self-build and Custom Housebuilding Register

What is self-build and custom housebuilding?

- 5.1. The Self-build and Custom Housebuilding Act 2015 places a duty on local authorities in England to keep a register of individuals and associations of individuals who are seeking to acquire a serviced plot of land in the area in order to self- or custom build homes which they will occupy as their main/sole residence.
- 5.2. Since April 2016, Lewes District Council has kept a register for individuals and associations who are looking for a plot to self- or custom build their home. The register provides information about the level of demand for self-build and custom build plots in the local area and will be used as evidence of the identified need for self-build housing.
- 5.3. The Self-build and Custom Housebuilding Act 2015 (the Act) and planning practice guidance states that the Council can implement a local connection test. This would mean the register would consist of two separate parts:
 - Part 1: entries with a local connection
 - Part 2: entries with no local connection

The Act places a duty on the council to grant enough 'development permissions of serviced plots of land' to meet the demand shown in Part 1 of the Register (but not specifically for those on the register). The entries on Part 1 together with the entries on Part 2 give the council an indication of the overall interest in self-build.

Public Consultation 2021

- 5.4. From 8 October 2021 till 19 November 2021 the Council carried out a public consultation to introduce a Local Connection Eligibility Test.
- 5.5. The Council propose applying the Eligibility Criteria for Local Connection of Homes First (LDC). To be taken up on Part 1 of the Register the applicant must meet at least one of the following criteria:

RESIDENCE

- reside in Lewes as your only or principal home and have done so for the previous 2 years
- have resided in the Lewes as your only or principal home for a period of at least 3 consecutive years out of the previous 5 years.

WORK

- being employed in the district or being self-employed and provide a service related to the district, and have been for the previous 2 years

FAMILY

- have close relatives who reside in Lewes as their only or principal home and have done for at least the previous 5 years.

ARMED FORCES

- When you have served in the Armed Forces within the previous 5 years you do not need a local connection to join our waiting list

Lewes District's Register

- 5.6. The Housing and Planning Act 2016 defines the base periods for the Register. The first base period is the date the register was first established (1st April 2016) to the day before the day on which section 10 of the Housing and Planning Act 2016 came into force (30th October 2016).
- 5.7. Within the most recent period (31st October 2020 to 30th October 2021) 72 individuals applied to be registered, table 8 shows that this more than the three foregoing years.

Table 8 Self Build Register Applications by Base Period

	Individuals	Associations	Total applicants
Base period 1 (1st April 2016 - 30 Oct 2016)	38	0	38
Base period 2 (31 Oct 2016 - 30 Oct 2017)	77	1	78
Base period 3 (31 Oct 2017 - 30 Oct 2018)	32	2	34
Base period 4 (31 Oct 2018 - 30 Oct 2019)	57	0	57
Base period 5 (31 Oct 2019 – 30 Oct 2020)	53	0	53
Total over Base periods 1, 2, 3, 4 and 5	262	3	260
Current Base period 6 (31 Oct 2020 - 30 Oct 2021)	72	0	72
Total over Base periods 1, 2, 3, 4 5 and 6	329	3	332

- 5.8. To date, the number of registrations has varied in number with the peak of 78 applications within Base period 2. The number of registrations in the last full Base period (6) has increased from the previous year, to a value close to that of the peak of 77. The information collected should be addressed carefully. Applicants are able

to apply to the Self-build and Custom Housebuilding Register without any restriction than the eligibility criteria⁷.

- 5.9. The timescale for granting permission is three years from the end of the base period. LDC has until 30th October 2024 to meet the demand arising from this period (31st October 2019 to 30th October 2020). However, the accumulated demand from base period 1, 2, and 3 is 147.
- 5.10. The number of self build plots granted planning permission can be difficult to quantify as it is not always identifiable through the application process. At the end of this base period, there have been a total of 53 Self-Builds since the register was introduced which have been granted self build exemption from the Community Infrastructure Levy. There were 7 Self-Build exemptions granted in base period 6.
- 5.11. There have been no planning applications granted in the monitoring year which have included self-build proposals, whereby those self-build units were controlled by condition or legal agreement. However, Planning Applications Committee has resolved to grant an application for 12 self-build plots at Hamsey Lakes but awaits a S106 agreement before that permission is granted.

Analysis of demand for plots

- 5.12. Most people on the register (56%) own their home, but a great part (42%) rent in the private sector. These data are of all individuals and associations on the register at the moment they registered.
- 5.13. The register includes a question on the amount people can afford for the complete build project, inclusive of purchase of land, build costs, legal costs, architects / planning fees, etc. Almost half of all the individuals who answered this question (148 out of 308) have up to £350,00 to spend on the build project; 38 of those have up to £150,000.
- 5.14. There are 6 individuals who have expressed interest in a one-bedroom dwelling, 62 individuals want a two-bedroom dwelling. Houses with 3 or 4 bedrooms are the most wanted (109 and 106 votes).
- 5.15. The preference for building in the Northern part of the district is greater than for the Coastal towns. Of the 329 individuals 252 would like to self/custom build on a rural location. Many people ticked all boxes for preferred areas for their self/custom build project.

⁷ The essential eligibility criteria are the following: being aged 18 or older; being a British citizen, a national of a EEA State other than the UK, or national of Switzerland; and seeking to acquire a serviced plot of land in the local planning authority's area to build a house to occupy as your sole or main residence

6. Core Strategy Policy reporting

- 6.1. This section of the AMR sets out the indicators against which spatial and core policies within the Core Strategy are monitored. These indicators have been developed as part of the Core Strategy monitoring framework.

- 6.2. A brief commentary follows each target table to provide some analysis on the indicator outcomes, highlighting policy/target achievement and underperformance.
- 6.3. Table 9 below sets out the key used to illustrate what progress has been made towards each target within the relevant monitoring period.

Table 9 Indicator Progress Key

PROGRESS DEFINITION	PROGRESS SYMBOL
Target achieved	✓
Progress towards target since previous available monitoring data	↑
Target underachieved /fall in progress from previous monitoring data	↓
No change from previous monitoring period	↔
Baseline data (first year monitoring)/latest available information	◆
Relevant available information	▲
No data currently available	✕

Spatial Policies

Table 10 Spatial Policies Indicators

SPATIAL POLICIES 1 – 8 (all policies collectively monitored)			
Collectively, the Spatial Policies are expected to make a contribution towards all of the strategic objectives (Note: targets identified for subsequent core policy areas will also be used to monitor the effectiveness of the spatial strategy).			
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
1a. To deliver a minimum of 6,900 net additional dwellings between 2010 and 2030 (345 per annum) and maintain a sufficient housing land supply.	(i) Cumulative number of dwelling completions (net)	As at April 2019: 2,129 net completions (237 p/a average for plan period). As at April 2020: 2,371 net completions (237 p/a average for plan period). As at April 2021: 2,643 net completions (240	↑

		p/a average for plan period).	
	(ii) Total number of housing completions for previous monitoring year (net)	2018/19: 281 2019/20: 242 2020/21: 272	
	(iii) Housing land supply – position	<p>As of 1st April 2018: Unable to demonstrate deliverable housing land equivalent to 4.99 years (4.92 years outside the SDNP)</p> <p>As of 1st October 2018: Able to demonstrate deliverable housing land equivalent to 5.32 years (5.22 years outside the SDNP)</p> <p>As at 1st April 2019: Able to demonstrate a housing land supply of 5.59 years, a surplus of 208 net dwellings (outside the SDNP).</p> <p>As at 1st April 2020 Able to demonstrate a housing land supply of 5.42 years, a surplus of 151 net dwellings (outside the SDNP).</p> <p>As at 1st April 2021: No updated information</p>	

	<p>(iv) Number of dwellings permitted on unidentified windfall sites:</p> <ul style="list-style-type: none"> - All windfall per annum - sites of less than 5 dwellings per annum 	<p>Per annum -</p> <p>2018/19: 114</p> <p>2019/2020: 208 gross</p> <p>2020/2021: 161</p> <p>Of less than 5 dwellings per annum –</p> <p>2019/20: 35</p> <p>2020/21: 62</p>	 
	(v) Number of dwellings permitted on rural exception sites	<p>2018/19: 0</p> <p>2019/20: 0</p> <p>2020/21: 0</p>	
1b. To explore opportunities for increasing housing delivery so that the projected level of housing need is more closely met.	A review of Spatial Policies 1 and 2 will be undertaken in the event that the current cross-authority work examining housing potential within the Sussex Coast Housing Market Area and adjoining areas identifies sub-regional housing delivery options that could be delivered within or partially within the Lewes District plan area. The timetable for this work is expected to be agreed in 2016.	<p>2019/20: The West Sussex and Greater Brighton Strategic Planning Board have appointed to the position of Strategic Advisor, who is currently working on the scope and timing for Local Strategic Statement 3.</p> <p>2020/2021 No further updates.</p>	
1c. To deliver 74,000 square metres of employment floorspace (gross) between 2012 and 2031	(i) Amount of floorspace developed for employment land (gross)	<p>2018/19 13,339m²</p> <p>2019/20: 7,518m²</p> <p>2020/2021: 7,893m²</p>	
	(ii) Cumulative amount of floorspace developed for employment land (gross)	<p>To 1st April 2019: 33,757.4m²</p> <p>To 1st April 2020: 41,275.4m²</p> <p>To 1st April 2021: 49,168.4m²</p>	

Sources: LDC			

Commentary

- 6.4. The SDNPA has now adopted its own Park-wide Local Plan and the Council required its disaggregated housing figure for LPP2. As a result, the Council now only supplies housing figures outside of the SDNP.
- 6.5. Figure 1 shows the housing completions over the last 5 monitoring years against the relevant target. There was a fluctuation in year 2017/2018 (partly due to a couple of larger sites being completed in Seaford and the 61 units at Land off Ridgeway in Wivelsfield Parish). The last three years have seen a relatively steady completion rate with the completion figures being above the average per annum plan period figure of 240.

Figure 1 – Housing delivery against disaggregated target

- 6.6. As of 1st April 2021, the Council did not publish an updated housing land supply figure and instead postponed publishing the note until 11th May 2021 as LPP1 reached its 5th anniversary since adoption on this date. This decision was taken as changes occur to how the five year housing land supply is calculated once strategic policies are more than 5 years old. Given that the 11th May 2021 falls outside the monitoring period covered by this report, this change to housing land supply will be discussed at greater length in next years AMR.
- 6.7. A review of the Spatial Policies 1, 2 and 8 will be triggered in April 2022 if the required transport mitigation measures to accommodate additional homes at Peacehaven / Telscombe have not been identified to solve capacity constraints on the A259 to the satisfaction and agreement of the local highway authority.

- 6.8. There has been a decrease in the number of dwellings permitted on unidentified windfall sites per annum (indicator 1a(iv)), falling from 208 dwellings to 161 dwellings. These are sites that are not specifically identified through the LPP1, LPP2 or made Neighbourhood Plans. Windfall completions in the district are anticipated to continue to be reliable source of supply; this position was strongly supported by the LPP1 Inspector who considered that within the district, based on past performance and the strength of the local housing market, windfalls are very likely to be a continual source of supply.
- 6.9. Figure 2 shows the windfall permissions over the last 5 years, which shows an average of over 100 units a year. Last year's fluctuation was considerably higher than the average, with this years figure also being above the 5 year average. Given that windfall sites are not identified through the development framework, fluctuations in the numbers provided year to year is expected and is not cause for concern.

Figure 2 – Windfall Completions

- 6.10. A figure of '0' has been recorded consistently against indicator 1a(v). However, it is understood through discussions with colleagues in Housing Department that a lull in rural exceptions sites is usually experienced when Local Plans are in preparation and that interest will pick up following adoption. Therefore, at this point the Council is not concerned and anticipate activity in this area to increase over the next year or two.
- 6.11. The amount of employment floor space has increased by 7,893m²; which is a small increase from 2019/20. Cumulatively, 49,168.4m² has been provided of the target figure of 74,000m² of employment floorspace required by 2031; this totals 66% of the 2031 target figure. This figure still includes employment floorspace across the District, including that with SDNP, for the purposes of identifying achievement towards the strategic objective. However, going forward a way of disaggregation or some amendment to the indicator should be considered given the adoption of the South Downs Local Plan this strategic objective is superseded in so far as it relates to the SDNP area.

	(v) Average construction cost by development type (construction cost £/m ²)	Not yet monitored	✕
2b. To reduce the number of households on the Council Housing Register	(i) Number of households currently on the Council Housing Register	31 st March 2017: 1,918 31 st August 2017: 945 7 th March 2019: 869 2020: No updated data 2021: No updated data	▲
<i>Sources: LDC, ESIF</i>			

Commentary

- 6.12. Eight planning applications were approved in 2020/21 which were large enough to trigger affordable housing contributions. Of these applications, one application achieved 100% affordable housing on site, two achieved 14% and 28% affordable on site and 5 achieved 0% affordable housing on site.
- 6.13. Of the applications which did not provide any affordable housing on site one permission was shown to not be possible to provide on site affordable housing and no commuted sum was sought given the type of accommodation proposed (emergency accommodation), one permission comprised part of the Newlands School redevelopment with the other concurrent application containing the affordable housing provision (25% affordable housing on site is provided across the development), one permission provided a financial contribution in lieu of on-site delivery, one app was shown as not viable to provide affordable housing and one app comprised a change of use from B1 to C3 for which prior approval had already been granted.
- 6.14. Indicator 2a (iii) shows that 13% of liable applications approved in the 2020/21 monitoring year achieved 40% affordable provision. This is a significant decrease from both the previous years. Considering the information presented in paragraph

6.12 (above) it is anticipated that the percentage of applications achieving 40% provision in the next monitoring year should increase.

- 6.15. The number of affordable housing completions will fluctuate year to year, depending on the developments which are being constructed at that time and at what point the affordable housing is phased.
- 6.16. Between Q2 2018 and Q2 2019 there has been a decrease in average house prices of 5.9%. Average sale prices of detached properties fell by 15% however average sale prices of flats saw a 22% rise.
- 6.17. In 2017 there was a significant decrease in registrations on the Council housing register due to a review of the Housing Register. This meant that the bands that some households were in changed, but also that many of the households were removed from the Housing Register altogether. Data on the Housing Register has not been available to comment on to date.

Table 11 Housing, Mix and Density Indicators

CORE POLICY 2 Housing Type, Mix and Density		➤ Objective 1	
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
3a. Provide a range of dwelling types and sizes to meet the identified local need	(i) Household spaces and accommodation type as a percentage %	2011 (District): - Whole house/bungalow (detached) – 35.1% - (semi-detached) – 26.5% - (terraced) – 19.1% - Flat, maisonette or apartment (flats/tenement) – 14.3% - (part of a converted/shared house) – 3.3% - (in commercial building) – 1.3% - (caravan or mobile/temporary structure) – 0.5% 2019: no updated data 2020: no updated data 2021: no updated data	×
	(ii) Number of C2 dwellings permitted and completed	As of 1 st April 2018: 2 permitted 0 completed 2018/19: None permitted or completed 2019/20: 1 Application for 55 Bed Care Home granted	↑

3b. Achieve residential densities in the region of 47 – 57 dwellings per hectare for towns and 20 – 30 dwellings per hectare for villages	(i) Average density of new house building, dwellings per hectare (dph)	2018/19: 60 2019/20: 42 2020/21: 59	↑
	(ii) Average density of residential developments over 6 units for i) towns and ii) villages (planning applications received not completions)	2018/19: Average for towns: 117dph Average for villages: 12dph 2019/20: Average for towns: 102dph Average for villages: 23dph 2020/21: Average for towns: 73dph Average for villages: 40dph	↑
	(iii) Percentage of new dwellings completed at: less than 30dph; between 30 and 50dph; and above 50dph	2018/19: Less than 30 dph – 46%; Dwellings between 30 and 50 dph - 20%; Dwellings above 50 dph – 33% 2019/20: Less than 30 dph – 29%; Dwellings between 30 and 50 dph - 65%; Dwellings above 50 dph – 6% 2020/21:	↑

		Less than 30 dph – 40% ; Dwellings between 30 and 50 dph – 35%; Dwellings above 50 dph – 25%	
<i>Sources: LDC, ESIF</i>			

Commentary

- 6.18. Indicator 3a(i) is informed by the census, therefore it is unlikely that it can be updated until after the publication of the 2021 census in 2022.
- 6.19. The average density for developments over six units in towns decreased from the previous two years to a figure more in line with the average densities set out in Core Policy 2 of LPP1. The average density for developments over six units in villages significantly increased from the previous monitoring year bringing the figure of 40dph, which is over the specified range of 20-30dph for villages set out in Core Policy 2 of LPP1. However, it should be noted that three applications met the criteria for indicator 3b (ii); application LW/18/0880 achieving a density figure of 7dph, application LW/18/0566 achieving a density figure of 12dph and application LW/20/0696 achieving a density figure of 101dph. Given the low number of applications that met the criteria for the indicator and outlying figure of 101dph from application LW/20/0696, it is expected that the dph figure will return to the target range next monitoring year.
- 6.20. Since the last AMR, the number of completed developments which have a density of less than 30dph have increased, between 30dph and 50dph has decreased and above 50dph has increased. Overall, 60% of completed developments are 30dph or more, making efficient use of land and in line with Core Policy 2 of LPP1.

Table 12 Gypsy & Traveller Accommodation Indicators

CORE POLICY 3 Gypsy & Traveller Accommodation			
➤ Objective 1 ➤ Objective 6			
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
4a. To provide a net total of 13 Gypsy & Traveller permanent pitches between 2014 and 2030 to meet the	(i) Pitches granted planning permission since 2014 in the area of Lewes District outside of the SDNP	None	↔

need as identified in the GTAA Update	(ii) Pitches granted planning permission since 2014 in the area of Lewes District within the SDNP	2017/18: 2 pitches 2018/19: 0 pitches 2019/20: 0 pitches 2020/21: 0 pitches	
	(iii) Number of pitches allocated in the Site Allocations and Development Management Policies DPD	LPP2 has allocated 1 site for 5 permanent pitches SDNP: 5 pitches	
Sources: LDC			

Commentary

6.21. The 2014 Gypsy and Traveller Accommodation Assessment (GTAA) sets out the recommended level of permanent pitch provision for each of the local planning authorities within East Sussex, including the area of the SDNP that falls within the county. Overall, 13 net additional permanent pitches need to be delivered within Lewes district, eight within the SDNP and five outside.

6.22. The Council carried out an extensive search for potential suitable sites for Gypsy and Traveller use. A site has been allocated in Plumpton Green for five pitches in LPP2; Policy GT01. This site is not identified in the Plumpton Neighbourhood Plan.

Local Economy and Regeneration

Table 13 Economic Development and Regeneration Indicators

CORE POLICY 4 Encouraging Economic Development and Regeneration

<i>Sources: LDC, ESIF, ONS</i>			

Commentary

6.23. In 2020/21 there has been an overall loss recorded against each employment land indicator compared to the previous monitoring year (5a(i), 5b (i)(ii)). The loss of employment space is mostly due to losing a larger office building to residential, and a change of use from Class E to Class F. A loss in overall employment space may be expected given that the COVID pandemic and the associated lockdowns all occurred during the April 2020 – March 2021 period which this monitoring year covers. However it is quite soon to assume this is the reasoning for the loss. The following AMR's will give a better indication as to whether employment land provision can be expected to return to pre-COVID levels.

- 6.24. The data used to report on impacts of tourism on the economy comes from the Cambridge Model Survey. Unfortunately, the 2020/21 survey has not been published by Tourism South East to date and therefore this data is not available. The Tourism and Culture department have advised that they expect to have real time, live data for future monitoring.
- 6.25. Indicator 5d(i) has no updated data since 2013 specifically on business under two years old. The ESiF reports that there were 350 small businesses (10-49 employees) in Lewes District in 2020 and 340 in 2021, which is a small decrease. Data on number of business enterprises in the District shows a decrease from 4,430 to 4,360 total business enterprises in the District from 2020 to 2021. In the years previous there had been a steady increase or no change in both cases; given that the COVID-19 pandemic and associated lockdowns all occurred within the 2020/21 monitoring year, it is not possible to draw accurate conclusions as to why the number has decreased asides from that the COVID-19 pandemic was the likely cause. Further analysis in future AMR's will give a better indication as to the trend of the data. Indicators 5d(iii) and 5d(iv) are informed by the 2011 Census, therefore it is unlikely that it can be updated until the publication of data in Spring 2022.

Table 14 Visitor Economy Indicators

<div> <div>CORE POLICY 5</div> <div>The Visitor Economy</div> <div> <ul style="list-style-type: none"> ➤ Objective 2 ➤ Objective 4 ➤ Objective 5 ➤ Objective 7 ➤ Objective 10 </div> </div>			
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
6a. To promote the growth of the tourism sector: improving linkages; the quality and number of visitor attractions; accommodation	(i) Contribution to the District's economy made by visitors – turnover of local businesses	2016: £215,864,000 2017: £174,674,000 2018: £180,800,000 2019: No data Available 2021: No available data	✗

		2019: No data Available 2021: No available data	
<i>Sources: Tourism South East</i>			

Commentary

- 6.26. As above, the data used to report on impacts of tourism on the economy comes from the Cambridge Model Survey. Unfortunately the 2020/21 survey has not been published by Tourism South East to date and therefore this data is not available. Again, the Tourism and Culture department have advised that they expect to have data for future monitoring.

Accessibility and Community Services

7b. To promote the vitality and viability of the district and town centres, but where local shops and facilities are no longer viable, consider for alternative uses.	(i) Retail unit vacancy rate in town centres Lewes town centre Newhaven town centre Peacehaven SCR Peacehaven Meridian Centre Seaford town centre	2012: Lewes Town Centre (TC) – 5.2% Newhaven TC – 21% (2009) Peacehaven SCR – 10% Peacehaven Meridian Centre – 6.25% Seaford TC – 7.2% 2017/18: No updated data 2018/19: No updated data 2019/20: No updated data 2020/21: No updated data	✕
	(ii) Net amount of completed retail development (sqm)	2017/18: 147m ² 2018/19: -688 m ² 2019/20: 615.5m ² 2020/21: 122m ²	↓
Sources: ESIF, 2012 Shopping and Town Centres Study (GL Hearn), LDC			

Commentary

- 6.27. Only some data has been released since 2013 to update this table for indicators relating to 7a. A new method of collecting data for this indicator, or a new indicator, may need to be found for future AMRs. In terms of access to amenities within 15 minutes the Council are anticipating that a study into the principles of 15 minute Neighbourhoods will be undertaken in 2022 to assess what parts of the district have access to services within 15 minutes and this can be updated in future AMR's.
- 6.28. The Lewes District Shopping and Town Centre Study was undertaken in 2012 which showed an improvement in vacancy rates 7b(i) for all of the towns where data was

available. However, we do not have more recent figures to publish. Consideration before the publication of the next AMR will have to be given to the value of including shopping vacancy surveys to our annual monitoring if we wish to see value from this indicator, or the indicator should be amended.

- 6.29. There has been a net decrease in retail development in the district. There have been a number of applications whereby large areas of retail floorspace have been lost and gained, all centring around residential development; typically, retail floorspace has been lost due to conversion to residential uses, and retail floorspace has typically been gained in flatted residential developments through convenience stores located to the ground floor of multi-storey residential buildings.

Table 16 Infrastructure Indicators

CORE POLICY 7 Infrastructure		➤ Objective 3 ➤ Objective 7	
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
8a. To maintain and enhance the level of provision of community facilities/services	(i) Net loss/gain (completions) of community services and facilities (E(d-f), F1 and F2 (c-d)) in the past year (sqm)	2016/17: 1663.27m ² 2017/18: 7754.76m ² 2018/19: 667m ² 2020/21: 1267m ²	↑
8b. To ensure essential infrastructure is provided for by the Community Infrastructure Levy (CIL)	(i) List of infrastructure projects funded by CIL in the past year	See IFS	×
	(ii) Amount of CIL funds received per annum	2016/17: £136,149.33 2017/18: £2, 667,782.93 2018/19: £1,183,301,60 CIL receipts received 2019/20: £2,988,756.46 2020/21: £1,136,068,44	↓
	(iii) Infrastructure improvements identified in Infrastructure Delivery Plan implemented	See IFS	×

Commentary

- 6.30. Indicator 8a (i) shows a net gain in the monitoring year of E(d-f), F1 and F2 (c-d) floorspace largely due (1111m² of 1267m²) to two changes of use coming forward; for provision of training centres (F1a) in place of office space (E).
- 6.31. The CIL Charging Schedule was adopted by Full Council on 14th October 2015 and the charges have been implemented for those areas of the district outside the National Park from the 1st December 2015. Planning applications decided on or after the 1st December 2015 may therefore be subject to the CIL.
- 6.32. Local Authorities are now required under amendments to regulations (The Community Infrastructure Levy (Amendment) (England) Regulations 2019 No.1103 that came into force 1 September 2019) to produce an IFS annually that sets out details about planning obligation receipts and anticipated expenditure. This is to provide clarity and transparency to local communities and developers on the infrastructure and expenditure and in aligning this to planned development, as envisaged in the Local Plan. Therefore it is not considered necessary to provide commentary on the above indicators in this AMR.
- 6.33. The IFS will be published separately to this AMR and will be available on the Lewes District Council website from the 31st December 2021.

Table 17 Green Infrastructure Indicators

<div> <div>CORE POLICY 8</div> <div>Green Infrastructure</div> <div> <ul style="list-style-type: none"> ➤ Objective 2 ➤ Objective 3 ➤ Objective 5 ➤ Objective 7 </div> </div>

<p><i>Sources: Natural England, Sussex Wildlife Trust, Sussex Local Wildlife Site Initiative and Sussex Biodiversity Record Centre</i></p>			

Commentary

- 6.34. Sites of Nature Conservation Importance (SNCIs) are now referred to as Local Wildlife Sites (LWSs). A Local Wildlife Site is defined as a discrete area of land that is considered to be of significance for its wildlife. Indicator 9a (i) shows an increase of 1.17ha of LWS, whilst indicator 9a (ii) shows a slight (1.1%) increase in 'Unfavourable declining' condition of SSSIs in Lewes District.
- 6.35. Natural England records indicate that there has been no change to the condition of Lewes Downs SSSI or SAC site or the condition of Castle Hill SAC.

Natural and Build Environment

Table 18 Air Quality Indicators

CORE POLICY 9 Air Quality		➤ Objective 7 ➤ Objective 8	
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
10a. To reduce the total number of Air Quality Management Areas (AQMAs)	(i) Number of Air Quality Management Areas	2016: 2 (Lewes Town Centre and Newhaven Town Centre) 2019: No Change 2020: No Change 2021: No Change	↔
10b. To ensure that annual mean Nitrogen Dioxide levels in any designated AQMA's do not rise year on year	(i) Annual Mean Nitrogen Dioxide Levels	2013: Lewes AQMA: 19 ug/m3 2015: Lewes PM2.5 = 11.55µg/m³ (Sussex Air) 2018: no updated data 2019: Lewes AQMA - 19ug/m3 PM ¹⁰ - 18µg/m3 2020: AQMA – Lewes - West Street – 16ug/ m³ AQMA – Lewes - – Newhaven – 20ug/m³ (less than 75% data capture rate at Newhaven AQMA) (Sussex Air Pollution Monitoring Network Annual Report 2020) 2021: No updated data	✗

10c. To improve air quality through the promotion of suitably located new development/services and through sustainable transport	(i) Mode of travel to work	<p>2011⁹: Private vehicle, 58.7% (62.6%); Public Transport, 15.4% (16%); Foot or Cycle, 11.6% (12.8%); People who work at or mainly at home, 13.9% (8%); Other, 0.4% (0.6%).</p> <p>2019: No updated data 2020: No updated data 2021: No updated data</p>	×
	(ii) Number of large development completions estimated to be within 30 minutes of public transport and walking/cycling journey time of services	<p>2016/17: 84% 2017/18: 84% 2018/19: 85% 2019/20: 100% 2020/21: 100%</p>	↔

⁹ Revised version released by ONS, April 2014

		2020: No updated data 2021: No updated data	
<i>Sources: Sussex Air, ESIF, LDC</i>			

Commentary

- 6.36. There has been no new AQMA in addition to the Lewes and Newhaven AQMAs. The last Sussex Air report was published in June 2020 and covered the 2019 year and shows the same figures reported in indicator 10b(i). Mean Nitrogen Dioxide Levels in the Lewes AQMA, 10b(i), are the same as they were in 2013.
- 6.37. The number of large development completions within 30 minutes of public transport has remained at 100% as all the larger sites wholly completed this monitoring year are in sustainable locations, in terms of access to services.
- 6.38. Indicator 10c(i) is informed by the census, therefore it is unlikely that it can be updated until after the next Census is published in Spring 2022.

Table 19 Natural Environment & Landscape Character Indicators

<div> <div>CORE POLICY 10</div> <div>Natural Environment & Landscape Character</div> <div> ➤ Objective 2 ➤ Objective 4 ➤ Objective 5 </div> </div>			
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
11a. To ensure that international, national and local designations are conserved and enhanced to a high quality	(i) Condition and size of internationally and nationally important wildlife and geological sites (SSSIs and SACs)	<p>SACs –</p> <p>2018:</p> <p>Castle Hill – 114.58 hectares (both in Lewes District and Brighton & Hove). 35.20% favourable, 64.80% unfavourable but recovering.</p> <p>Lewes Downs – 165.04 hectares. 95.55% of SAC land favourable. 4.45% unfavourable but recovering.</p> <p>2020: No change</p> <p>2021: No change</p> <p>SSSIs –</p> <p>2018/19: SSSIs - 1872 ha, 6.4% of district. 53.9% Favourable 43.8% Unfavourable</p>	

		recovered, 1.1% Unfavourable no change, 1.1% Unfavourable declining 2019/20: SSSI's no change in area or condition. 2020/21: SSSIs – 89 units, 52.8% Favourable, 43.8% Unfavourable recovered, 1.1% Unfavourable no change, 2.2% Unfavourable declining	
	(ii) Area of land designated as Site of Nature Conservation Interest (SNCI) - district	2016: 1,226 (ha) 2017: No change 2018: No change 2019: No change 2020: 1222 (ha) 2021: 1223.17 (ha)	↑
	(iii) Area of Land designated as Local Nature Reserve	2016: 349.9 (ha) 2017: 349.89 (ha) 2018: 349.89 (ha) 2019: No change 2020: No change 2021: No change	↔
11b. To seek a net gain in biodiversity resources, therefore contributing to the targets set out in the Sussex Biodiversity Action Plan	(i) Total number of SAC's, SSSI's, SNCI's and LNR's designations	2017: 109 (2 SAC's; 17 SSSI's; 86 SNCI's; 4 LNR's) 2018: No change 2019: No change 2020: No change 2021: No change	↔
	(ii) Total area (m ²) of land designated as SAC's, SSSI's, SNCI's and LNR's	2016: 3,641.6 (ha) 2017: 3,641.6 (ha) 2018: 3,641.6 (ha) 2019: No change 2020: 3,637.33 (ha) 2021: 3,638.34 (ha)	↑
Sources: Sussex Biodiversity Record Centre, Natural England, Sussex Wildlife Trust, ESIF			

Commentary

- 6.39. Sites of Nature Conservation Importance (SNCIs) are now referred to as Local Wildlife Sites (LWSs). As per paragraph 6.33, there has been a small increase in area of designation of LWS (11a (ii)) which therefore relays to a small increase in the total area indicator, 11b (ii).

Table 20 Built & Historic Environment and High Quality Design Indicators

CORE POLICY 11 Built & Historic Environment and High Quality Design		➤ Objective 4 ➤ Objective 8	
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
12a. To improve sustainable construction standards year on year. Adequately address the need to reduce resource and energy consumption	(i) A new indicator has not been established at this point but the District Council, and SDNP, will look to introduce an effective way of monitoring this target at the earliest opportunity	Not yet monitored	✗
12b. The safeguarding of historic assets	(i) Number of Listed Buildings part-demolished/ demolished	2015/16: 2 partly demolished 2016/17: 2 partly demolished 2017/2018: 0 buildings 2018/19: 1 extension 2019/20: 2 applications including demolition 2020/21: 0 buildings	↓
Sources: LDC			

Commentary

- 6.40. An effective way of monitoring indicator 12a has not yet been established. However the Council continue to encourage improvements in sustainable construction. Technical Advice Notes (TANs) were published in early 2021 which aim to guide applications for planning permission, setting out expectations in terms of sustainable construction and circular economy principles. Applications for new residential dwellings or commercial floorspace will be required to be supported by a checklist and or further reports to show how they have considered sustainable construction principles. An update can be expected to be provided on this in the next AMR.
- 6.41. This monitoring year there have been no applications for listed building consent which included a form of demolition.

Table 21 Flood Risk, Coastal Erosion, Sustainable Drainage and Slope Stability Indicators

<div> <div> CORE POLICY 12 Flood Risk, Coastal Erosion, Sustainable Drainage and Slope Stability </div> <div> ➤ Objective 9 </div> </div>			
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
13a. To steer development away from areas of flood risk and coastal erosion	(i) Number of planning applications granted contrary to the advice on the Environment Agency flood defence grounds (fluvial & tidal)	2015/16: 4 2016/17: 1 2017/18: 1 2018/19: 1 2019/20: 0 2020/21: 0	↔
13b. To incorporate Sustainable Drainage Systems into new development where appropriate	(i) Percentage of appropriate developments incorporating sustainable urban drainage systems	2015/16: 0.86% (8: 7 residential and 1 commercial development) 2016/17: 11 (9 residential, 1 agricultural and 1 commercial) 2018/19: No data 2019/20: No data 2020/21: No data	✗
Sources: Environment Agency, LDC			

Commentary

- 6.42. In the monitoring year, no planning permissions were granted contrary to the advice of the Environmental Agency (EA). EA records indicated they objected to seven applications, of which two were subsequently refused, two are still pending consideration, three overcame the objection via EA approved planning condition.
- 6.43. Sustainable Urban Drainage Systems (SuDS) are being incorporated to developments. The majority of developments have a form of SuDS. To gain maximum value from this indicator this should be refined to capture the range of SuDS interventions that are now implemented and monitored by ESCC, this will require working with ESCC SuDS Team to understand what data they have available and how we can interpret that in terms of monitoring the effectiveness of this policy.

Sustainable Development

Table 22 Sustainable Travel Indicators

<div> <div>CORE POLICY 13</div> <div>Sustainable Travel</div> <div> ➤ Objective 3 ➤ Objective 6 ➤ Objective 7 ➤ Objective 8 </div> </div>			
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
14a. To ensure that new development is located in sustainable locations with good access to services	(i) Average minimum travel time (minutes) to the nearest service by public transport/walking	<p>2013: Employment, 10; Food stores 7; FE College, 38; GP's, 9; Hospitals, 41; Primary Schools, 7; Secondary School, 13; Town Centre, 14.</p> <p>2017: Employment – 9, Food stores – 9, FE College – 27, GPs – 14, Hospital – 27, Primary School – 11, Secondary Schools – 18, Town Centre - 18</p> <p>2019: No updated data 2020: No updated data 2021: No updated data</p>	×
	(ii) Average minimum travel time (minutes) to the nearest service by bicycle	<p>2013: Employment, 7; Food stores 6; FE College, 20; GP's, 6; Hospitals, 33; Primary Schools, 5; Secondary School, 8; Town Centre, 13.</p> <p>2017: Employment – 9, Food stores – 8.8, FE College – 17.1, GPs -10.9, Hospitals – 33.9, Primary Schools – 8.7, Secondary Schools – 14.2, Town Centres – 17.4</p> <p>2019: No updated data 2020: No updated data</p>	×

		2021: No updated data	
	(iii) Amount of large residential development within 30 minutes public transport time of a GP, hospital, primary and secondary schools, areas of employment and a major health centre(s)	2016/17: 84% 2017/18: 84% 2018/19: 85% 2019/20: 100% 2020/21: 100%	↑
14b. Improvements to facilities allowing the uptake of sustainable travel (walking/ cycling/public transport)	(i) Percentage who travel to work by public transport	2011: Public Transport, 15.4% 2019: No updated data 2020: No updated data 2021: No updated data	×
	(ii) Net increase/ decrease in rights of way	Dec 2014: 356 miles June 2016: 353 miles Nov 2017: 356 miles Oct 2018: 370 miles 2019: No change 2020: No change 2021: 367 miles (+0.2miles since last year see commentary paragraph 6.45)	↔
14c. Year on year increase in the number of people travelling to work by sustainable modes of transport	(i) Number of people travelling to work by public transport	2011: 7,291 2019: No updated data 2020: No updated data 2021: No updated data	×
Sources: ESIF, LDC, ESCC			

Commentary

6.44. The latest figures for 14a(i) and (ii) were released by the Department for Transport in December 2019 and these are for 2017. There has been no further updated data. 14a(iii) is calculated on the basis of new residential development completed in the monitoring year on sites of more than six units. In the monitoring year three such sites were completed, and all of these were within 30 minutes public transport time of these services. It is however acknowledged that this is not a large pool of

applications and therefore fairly unrepresentative. To increase the pool of data and therefore the value of the indicator we would either need to decrease the size of developments captured or look at consents granted rather than those dwellings completed.

- 6.45. ESCC have confirmed that 0.2 miles have been added to the rights of way network from the last year, with two creations and one diversion. They further advised that they have migrated to a new GIS system this year which has led to adjustments to the line data for some paths; this would account for what appears as a 3mile loss since October 2018, but in reality is likely a rationalising of the data.
- 6.46. Indicators 14b(i) and 14c(i) are informed by the census, therefore it is unlikely that they can be updated until after the publication of the 2021 census in Spring 2022.

Table 23 Renewable and Low Carbon Energy and Sustainable Use of Resources Indicators

CORE POLICY 14 Renewable and Low Carbon Energy and Sustainable Use of Resources			
➤ Objective 1 ➤ Objective 6 ➤ Objective 8			
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
15a. To support low carbon and renewable energy installations	(i) Number of planning applications received and granted consent relating to renewable energy installations	2016/17: 6 2017/18: 7 2018/19: 4 2019/20: No accurate data 2020/21: No accurate data	✗
	(ii) Carbon Dioxide emissions per capita per sector: Total emissions (kt)	2016: 413 2017: 392 2018: No updated data 2019: No updated data 2020: No updated data 2021: No updated data	✗
15b. Require all new dwellings to achieve water consumption of no more than 110 litres per day per person	(i) Percentage of new dwellings meeting the required water consumption standard	Not monitored yet	✗
15c. All new non-residential developments over 1,000 square metres will be expected to achieve the BREEAM	(i) Percentage of new non-residential developments over 1,000 square metres which achieve a BREEAM	Not monitored yet	✗

'very good' rating standard.	design certificate rating of 'very good'		
<i>Sources: LDC, ESIF</i>			

Commentary

- 6.47. There is no accurate way of identifying applications which include renewable energy installations, many applications for dwellings would include renewables such as solar panels but this would not necessarily be included in descriptions of development and therefore the information is not readily available.
- 6.48. The Council are committed to supporting sustainable development. As mentioned previously TANs were published in early 2021 which set out expectations in terms of sustainable construction. Applications for new residential dwellings or commercial floorspace are now required to be supported by a checklist and/or further reports to show how they have considered sustainable construction principles including the use of renewable energy. Submission of the checklist will enable easier monitoring of applications that propose renewables, therefore giving more reliable data for comparison. An update can be provided on this in the next AMR.
- 6.49. Indicators 15b(i) and 15c(i) are currently not monitored but as above these are covered in the Sustainable Construction checklist that have been introduced as a validation requirement in 2021 and this will make monitoring of these easier and more accurate for the next AMR.

7. Local Plan Part 2 Development Management Policy reporting

Table 24 Protection of biodiversity and geodiversity

DM24 Protection of biodiversity and geodiversity			
TARGET	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
To manage and monitor the Reedens Meadow SANG at Newick.	i) Net number of dwellings mitigated	2018: Reedens Meadow SANG is implemented and open to the public. 2019/20: 2 dwellings mitigated 2020/21: 0 dwellings mitigated	
	ii) Cumulative monies collected from new development via section 106 contributing towards the maintenance of Reedens Meadow SANG	2019/20: £10K from 2 planning permissions 2020/21: No money collected	
	iii) Use of the SANG through visitor survey and local monitoring reports	×	
Sources: Environment Agency, LDC			

Commentary

- 7.1. It has been agreed that the SANG will be adopted by Lewes District Council but the site is yet to be formally handed over. Given the age of the SANG there is currently no formal monitoring of its condition nor usage carried out. An effective way of doing so will need to be considered once the site is formally adopted by the Council.

Limitations

- 7.2. The 2020/21 update of the AMR identified several limitations, which are consistent over the monitoring years, which highlighted and suggested that there was a

potential need to revise or update the indicators. The Council are in the process of drafting a new local plan, at which point the indicators can be updated to provide a more consistent stream of measurable data points for analysis.

- 7.3. The COVID-19 pandemic is a limitation that should be accounted for when comparing this years results with past data, and when analysing this years data in comparison to future monitoring years; for a number of months during the 2020/21 monitoring year there have been severe restrictions on the movement of people which has severely impacted all sectors of society.
- 7.4. Further to the above point, many indicators rely on the 2011 Census. The omission of updates for these indicators since 2011 demonstrates that the information is only available from this source and therefore when updating the indicators, selecting a data source that is available more readily will provide more timely data points for analysis.

8. Neighbourhood Plan Policy reporting

8.1. This section of the AMR sets out the indicators against which Neighbourhood Planning policies within each Neighbourhood Plan are monitored.

8.2. Where relevant, analysis on the indicator outcomes is provided. However, a number of indicators are assessed for the first full monitoring year against the policies. Therefore the data collected will constitute the baseline data which will be used to assess progress in future AMRs.

Newick Neighbourhood Plan

8.3. Newick Neighbourhood Plan was 'made' in July 2015.

Table 25 Housing Indicators (Newick)

POLICY HO2, HO3, HO4, HO5		➤ Objective 9	
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Deliver 100 net additional dwellings in the period up to 2030 on the four allocated sites	NNP(a) Net additional dwellings completed on the allocated sites (HO2 – HO5)	2018/19: 7 2019/20: 0 2020/21: 0	↔
	NNP(b) Number of windfall units permitted in/adjacent to Newick village in addition to allocated sites (HO2 – HO5)	2018/19: 2 (net) 2019/20: 4 (net) 2020/21: 2 (net)	↓
	NNP(c) Affordable homes completed on allocated sites (HO2 – HO5)	2018/19: 0 2019/20: 0 2020/21: 0	↔
	NNP(d) Housing type as a percentage	2018/19: 3 Bedroom: 100% 2019/20: 2 Bedroom: 50% 3 Bedroom: 50%	▲

		2020/21: 2 Bedroom: 50% 3 Bedroom: 50%	
Sources: LDC			

Commentary

8.4. Within 2018/19, Land at Cricketfields, (Policy HO2.1) with a contribution of 12 affordable units was completed. An application for Site HO3 for 32 dwellings is currently under consideration. Site HO4 has had two applications refused; LW/18/0351 and LW/20/0298 both of which comprised development proposals of 69 dwellings (a 44% uplift on the sites allocation). Both decisions were appealed and subsequently dismissed at appeal as of 28th October 2021. Outline consent was granted in 2018 for two dwellings at site HO5, with a Reserved Matters being refused (ref LW/20/124) and subsequently allowed on appeal during the monitoring period.

Table 26 Local Economy Indicators (Newick)

POLICY LE1, LE2		➤ Objective 12	
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Encourage small scale expansion of existing retail and business premises in the parish	NNP(e) Net additional floorspace (A and B use classes)	2018/19: 0 2019/20: 0 2020/21: 0	↔
	NNP(f) Net additional floorspace (B1 light industry, B2 and B8) at previous milk processing plant and Rotherfield Wood Timber Yard	2017/18: 0 2018/19: 0 2020/21: 0	↔
Sources: LDC			

Commentary

8.5. No net additional, or loss, of retail or business floorspace has been permitted between 1st April 2020 and 31st March 2021.

Table 27 Community Facilities Indicators (Newick)

POLICY CF1, CF2			
➤ Objective 11			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Prevent change of use of the village's key community facilities	NNP(g) Net loss/gain (completions) of community services and facilities (D1 and D2) on listed sites (CF1) in the past year (sqm)	2018/19: 0 2019/20: 0 2020/21: 0	
Provide additional recreational space and/or equipped play space	NNP(h) Net loss/gain (completions) of recreational space and/or equipped play space (D2) in the past year (sqm)	2018/19: 0 2019/20: 0 2020/21: 0	
Sources: LDC			

Commentary

8.6. There has been no loss or gain of community facilities or recreational space in the NP area.

Ringmer Neighbourhood Plan

8.7. The Ringmer Neighbourhood Plan was 'made' in February 2016.

Table 28 Employment Indicators (Ringmer)

POLICY 5.1			
Employment in Ringmer			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Enhance local employment opportunities in Ringmer village	RNP(a) Loss/change of use of any existing employment (A, B and D use classes) floorspace	2018/19: 0 2019/20: 0 2020/21: 0	

	RNP(b) Number of employment site allocations developed	2018/19: 0 2019/20: 0 2020/21: 0	
	RNP(c) Net gain/loss of employment (A1, B1 and D2 use classes) floorspace (sqm)	2018/19: 0sqm 2019/2020: net gain delivered A1: 67.2 B1: 453sqm D2: 187.8sqm 2020/21: 0sqm	
Sources: LDC			

Commentary

8.8. There has been no net gain or loss of employment floorspace within the Ringmer Neighbourhood Plan Area in the monitoring year 2020/21. However, two applications have received approval within the monitoring year; LW/18/0880 involving development of a village care centre and 16 affordable housing units, and LW/20/0219 involving the change of use from B1 to C3.

Table 29 Retail Facilities Indicators (Ringmer)

POLICY 5.2 Retail facilities in Ringmer			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Protect and support retail, service, office and leisure uses in Ringmer village	RNP(d) Net loss/gain of retail (A1), office (B1a), leisure (D2) floorspace (sqm)	2018/19: 0 2019/2020: net gain delivered A1: 67.2 B1: 453sqm D2: 187.8sqm 2020/21: 0sqm	
Sources: LDC			

Commentary

8.9 In the 2020/21 monitoring year there was no net loss or gain as there have been no commercial completions.

Table 30 Housing Indicators (Ringmer)

POLICY 6.4 Total new housing number in Ringmer to 2030			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Level of planned housing in Ringmer village over the Plan Period	RNP(e) Net dwellings granted planning permission on allocated sites (Policy 6.4)	2018/19: 9 2019/20: 1 2020/21: 7	
	RNP(f) Net dwellings granted planning permission on non-allocated sites	2018/19: 0 2019/20: 3 2020/21: 3	
Sources: LDC			

Commentary

- 8.10 There have been 7 dwellings granted planning permission on allocated sites this monitoring year comprising; one dwelling approved (LW/19/0599) at site RES13 and six dwellings approved (LW/18/1011) at site RES24 of the RNP.
- 8.11 Three dwellings on non-allocated residential sites have been granted planning permission during this monitoring year.

Table 31 Affordable Housing Indicators (Ringmer)

POLICY 6.2 Affordable housing number and type			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Ensure the relevant provision of affordable housing	RNP(g) Number of affordable units granted permission on allocated sites (Policy 6.2)	2018/19: 0 2019/20: 0 2020/21: 4	
	RNP(h) Housing type of affordable units as a percentage	2018/19: 0 2019/20: 2 bed house: 57% 3 bed house: 43% 2020/21: 2 bed house: 50% 3 bed house: 50%	
Sources: LDC			

Commentary

- 8.12 Policy 6.2 sets the minimum level of affordable housing that should be developed in the Parish for the plan period in line with CP1 of the Core Strategy. As explained in paragraphs 7.10 - 7.11, the Council had to align its affordable housing policy with national policy after the adoption of the Core Strategy hence after the Ringmer Neighbourhood Plan was made.
- 8.13 The Council fully supports the target of delivering 80 affordable housing on allocated sites up to 2030 but does not have the power to enforce it. CP1 of the Core Strategy, as amended by national policy, allows the Council to seek 40% affordable housing for residential development of 10 units or more.
- 8.14 This monitoring year there have been 4 affordable units granted permission on allocated sites; all four have been granted within application LW/18/1011 at site RES24 of the RNP.

Table 32 Green Infrastructure Indicators (Ringmer)

POLICY 7.2 Ringmer Green & other managed open spaces			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Prevent the loss of managed open spaces	RNP(i) Loss/change of use of allocated managed open spaces	2018/19: 0 2019/20: 0 2020/21: 0	
Sources: LDC			

Commentary

- 8.15 No comment.

Table 33 Village Feel Indicators (Ringmer)

OBJECTIVE Soc6 Ringmer's 'village feel'			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Maintain a vibrant, successful, balanced and inclusive rural community	RNP(j) Proposal granted planning permission contrary to officer recommendation that adversely affect Ringmer Green Conservation Area (overturn at	2018/19: 0 2019/20: 0 2020/21: 0	

	appeal or planning committee)		
<i>Sources: LDC</i>			

Commentary

- 8.16 No planning permissions affecting Ringmer Green Conservation Area were approved contrary to officer's recommendations, by committee nor allowed on appeal.

Table 34 Sustainability Appraisal Monitoring Indicators (Ringmer)

SA MONITORING INDICATORS			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Protect designated areas	RNP(k) Condition of Plashett Park Wood SSSI	2015/16:157.61 ha 100% unfavourable but recovering 2018/19: No updated data 2019/20: No updated data 2020/21: No updated data	✗
	RNP(l) Condition of Lewes Downs SAC	2015/16: 165.04 ha 95.55% favourable 4.45% unfavourable but recovering. 2018/19: No updated data 2019/20: No updated data 2020/21: No updated data	✗
<i>Sources: Natural England</i>			

Commentary

- 8.17 The Plashett Park Wood SSSI was assessed unfavourable but recovering in October 2010 and has had no update since.
- 8.18 Natural England notes that there has not been much change at either Castle Hill or Lewes Downs SAC since the previous reporting in 2016. However, both sites are moving in the right direction with the required management in place.

- 8.19 There are 13 live units for the Lewes Downs SAC of which over 85% are in a favourable condition. All the units have not been assessed at the same time: 3 units were assessed in 2020, these were units of favourable condition and no change was made to their condition status.

Wivelsfield Neighbourhood Plan

The Wivelsfield Neighbourhood Plan was 'made' on 7 December 2016.

Table 35 Housing Indicators (Wivelsfield)

POLICY 2			
Housing in Wivelsfield			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Deliver minimum 30 net additional dwellings in the period up to 2030 on the three allocations sites.	WNP (a) Net dwellings completed on allocated sites (Policy 2)	2018/19: 0 2019/20: 0 2020/21: 2	↔
	WNP (b) Net affordable homes completed on allocated site Policy 2i.	2018/19: 0 2019/20: 0 2020/21: 0	↔
	WNP (c) Housing type* (as a percentage) delivered on allocated site Policy 2i.	2018/19: 0 2019/20: 0 2020/21: 0	↔
Sources: LDC			
* 1, 2, 3, 4+ bed and semi-detached, detached, terraced homes.			

Commentary

- 8.20 Whilst not allocated within the Wivelsfield Neighbourhood Plan, site SP5 allocated within the Lewes District LPP1 saw the remaining 53 units – of which 35 were affordable – completed within the monitoring year. Two dwellings have been completed at site 2.ii of the WNP with no movement on the other two allocated sites within the WNP.

Table 36 Community Facilities Indicators (Wivelsfield)

POLICY 4			
Community facilities in Wivelsfield			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Protect and support community facilities,	WNP (d) Net loss/ gain (sqm completions)	2018/19: 0	↔

employment and business uses in Wivelsfield.	of community facilities as listed under i-viii in Policy 4	2019/20: 0 2020/21: 0

Hamsey Neighbourhood Plan

8.21 Hamsey Neighbourhood Plan was 'made' on 21 July 2016.

Table 37 Housing Indicators (Hamsey)

POLICY H1, H6, H9			
Housing growth and development in Hamsey			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Deliver housing in a sustainable manner.	HNP (a) Percentage net dwellings delivered on brownfield land.	2018/19: 91% 2019/20: No dwellings delivered 2020/21: 100%	↑
	HNP (b) Housing type and mix* (as a percentage) delivered in the last year.	2018/19: 1 Bedroom: 7% 2 Bedroom: 26% 3 Bedroom: 22% 4 Bedroom: 44% 2019/20: No dwellings delivered. 2020/21: Unknown	↔
	HNP (c) Net affordable homes completed	2018/19: 11 2019/20: 0 2020/21: 12	↑
	HNP (d) Net housing delivered between 20-30 dph	2018/19: 29 2019/20: No dwellings delivered 2020/21: 0	↔

Sources: LDC

* 1, 2, 3, 4+ bed and semi-detached, detached, terraced homes.

Commentary

8.22 Large parts of the south and west of the parish of Hamsey are within the SDNP. Therefore Lewes District Council is only the planning authority for part of the Neighbourhood Plan area.

8.23 The former Hamsey Brickwork site delivered 28 homes of which 12 were affordable this monitoring year within the Hamsey Neighbourhood Plan Area. The type and mix of the 28 dwellings completed is unknown. The type and mix of the approved planning application for 49 dwellings is; 10 two bedroom units (20%), 21 three bedroom units (43%), 13 four bedroom units (27%) and 5 five bedroom units (10%).

Plumpton Neighbourhood Plan

8.24 Plumpton neighbourhood plan was 'made' 2 May 2018.

Table 38 Housing and Employment Indicators (Plumpton)

POLICY 5			
Housing in Plumpton			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Deliver minimum 50 net additional dwellings in the period up to 2030 on the four housing site allocations.	PNP (a) Net dwellings completed on allocated sites (Policies 5.1 – 5.4).	2018/19: 0 2019/20: 0 2020/21: 0	↔
	PNP (b) Housing type and size (as a percentage) delivered on allocated sites.	2018/19: 0 2019/20: 0 2020/21: 0	↔
Protect and support community facilities, employment and business uses in Plumpton Green.	PNP (c) Net loss/ gain of employment and business use (B use classes) (sqm completions).	2018/19: 0 2019/20: 0 2020/21: 104sqm	↑
	PNP (d) Net loss/ gain of shops or commercial uses (A use classes) (sqm completions).	2018/19: 0 2019/20: 0 2020/21: 0	↔
Sources: LDC			

Commentary

- 8.25 Whilst there have not been any completions on allocated sites this monitoring year, an application relating to allocated site 5.2 of the PNP for provision of 10 dwellings for persons aged 55 or over received approval within the monitoring year (application ref LW/19/0237). This means that 3 of the 4 allocated sites (5.1, 5.2 and 5.4) have extant planning permission.
- 8.26 There has been a net gain of 104sqm of Class E(g)(iii) (formerly B1(c)) this monitoring year provided through a Section 73a application (ref LW/18/0746) for change of use of a redundant agricultural building to B1 use. There has been no change in commercial or community uses.

Seaford Neighbourhood Plan

- 8.27 The Seaford Neighbourhood Plan was 'made' on 24th February 2020.
- 8.28 This is the second monitoring year of the Neighbourhood Plan and first full monitoring year.

Table 39 Housing (Seaford)

Objective 1 Housing in Seaford			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
To deliver, in the first instance on brownfield sites, high quality new open market and affordable homes that meet the needs of the whole community both now and in the future.	SNP (a) Net dwellings completed	2019/20: 4 2020/21: 13	↑
	SNP (b) Percentage net dwellings delivered on brownfield land.	2019/20: 100% 2020/21: 75%	↓
	SNP (c) Net affordable homes completed	2019/20: 0 2020/21: 0	↔
	SNP (d) Dwellings granted consent within/outside the planning boundary.	2019/20: 3 Within 0 Outside 2020/21: 193 Within 0 Outside	▲
<i>Sources: LDC</i>			

Commentary

- 8.29 In terms of the monitoring year, 13 dwellings have been completed within the Seaford Parish (outside the SDNP area). The noteworthy completions comprise those arising from application LW/18/0614, which involved the change of use from a hotel to six self-contained flats.
- 8.30 All applications comprising residential development that were granted consent within the monitoring year, were within the planning boundary; 193 dwellings received consent across 6 applications, the bulk of which – 183 dwellings - have been approved within the two planning applications pursuant to the Newlands School redevelopment, refs LW/19/0258 and LW/19/0475.

Table 40 Local Business and Tourism (Seaford)

Objective 10			
Local Business and Tourism			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Enhance and maintain the local economy by: (i) supporting employment and businesses in the SNP area and (ii) encourage tourism throughout the parish	SNP (e) Net gain/loss of employment floorspace	2019/20: Net gain 116m ² 2020/21: Net loss 136m ²	
Sources: LDC			

Commentary

8.31 There has been a net loss of 136m² of employment floor space lost during the monitoring year. This is wholly comprised of the loss of a joinery workshop/ builders yard and subsequent provision of two dwellings (ref LW/16/0094).

Newhaven Neighbourhood Plan

8.32 The Newhaven Neighbourhood Plan was ‘made’ on 27th November 2019.

Table 40 Economy and employment (Newhaven)

Objective 3			
Economy and employment			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Help businesses create jobs by; supporting refurbishment, adaptation and environmental improvements to	NHNP (a) Net gain/loss of employment floorspace	2019/20: Net gain 5123m ² 2020/21: Net loss 640m ²	

attract new employment uses	NHNP (b) Net gain/loss of use classes D1/D2	2019/20: Net gain 340m ²	
supporting development or uses that enhance the visitor experience including recreational and leisure uses		2020/21: No loss or gain	
Sources: LDC			

Commentary

8.33 The net loss of employment floorspace pertains to one planning application, ref LW/19/0012, for the change of use and demolition of office space (B1) to 13 residential units (C3).

Table 41 Housing (Newhaven)

Objective 7 Housing			
AIM	INDICATORS	CURRENT POSITION	PROGRESS TOWARDS TARGET
Housing development will;	NHNP (c) Net dwellings completed	2019/20: 26 2020/21: 27	
support the redevelopment of brownfield sites	NHNP (d) Percentage net dwellings delivered on brownfield land.	2019/20: 100% 2020/21: 70%	
ensure that development include a suitable mix of housing to meet local needs and provide a range of dwelling sizes	NHNP (e) Net affordable homes completed	2019/20: 0 2020/21: 13	
	NHNP (f) Housing type and mix* (as a percentage) delivered in the last year.	2019/20: 1 bed: 0 2 bed: 7% 3 bed: 93% 4bed+: 0 2020/21: 1 bed: 34% 2 bed: 39% 3 bed: 27% 4 bed+:0	
<i>Sources: LDC</i>			

Commentary

- 8.34 There has been a marginal increase in total dwellings completed; 27 this monitoring year compared with 26 last year; the 27 net dwellings being spread across 10 planning applications. Notable completions came forward from application LW/19/0012 providing 13 affordable units; this application also comprised the total net affordable homes completions pertaining to the increase in affordable home completions as per indicator NHNP(e).
- 8.35 There has been a greater diversity in terms of housing types delivered, with a relatively even split across 1, 2 and 3 bed completions this monitoring year, compared to the previous year whereby the majority of completions came forward as 3 bed dwellings.

9 Summary table of policy performance outcomes

Core Strategy

Table 45 Core Strategy Summary Table of Policy Performance Outcomes

TARGET	INDICATOR	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
1a. To deliver a minimum of 6,900 net additional dwellings between 2010 and 2030 (345 per annum) and maintain a sufficient housing land supply.	(i) Cumulative number of dwelling completions (net)	↑	↑	↑	↑
	(ii) Total number of completions for previous monitoring year (net)	↑	↓	↓	↑

11a. To ensure that international, national and local designations are conserved and enhanced to a high quality	(i) Condition and size of internationally and nationally important wildlife and geological sites (SSSIs and SACs)	↔	↔	↔	↔
	(ii) Area of land designated as Site of Nature Conservation Interest (SNCI) – district	↔	↔	↔	↑
	(iii) Area of Land designated as Local Nature Reserve	↔	↔	↔	↔
11b. To seek a net gain in biodiversity resources, therefore contributing to the targets set out in the Sussex Biodiversity Action Plan	(i) Total number of SAC's, SSSI's, SNCI's and LNR's designations	↔	↔	↔	↔
	(ii) Total area (m ²) of land designated as SAC's, SSSI's, SNCI's and LNR's	↔	↔	↔	↑
12a. To improve sustainable construction standards year on year. Adequately address the need to reduce resource and energy consumption	A new indicator has not been established at this point but the district council, and SDNP, will look to introduce an effective way of monitoring this target at the earliest opportunity	✗	✗	✗	✗

TARGET	INDICATOR	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
12b. The safeguarding of historic assets	(i) Number of Listed Buildings part-demolished/ demolished	↑	▲	▲	↓
13a. To steer development away from areas of flood risk and coastal erosion	(i) Number of planning applications granted contrary to the advice on the Environment Agency flood defence grounds (fluvial & tidal)	↑	↔	↔	↔
13b. To incorporate Sustainable Drainage Systems into new development where appropriate	(i) Percentage of appropriate developments incorporating sustainable urban drainage systems	◆	×	×	×
14a. To ensure that new development is located in sustainable locations with good access to services	(i) Average minimum travel time (minutes) to the nearest service by public transport/walking	◆	×	×	×
	(ii) Average minimum travel time (minutes) to the nearest service by bicycle	◆	×	×	×
	(iii) Amount of large residential development within 30 minutes public transport time of a GP, hospital, primary and secondary schools, areas of employment and a major health centre(s)	↔	↑	↑	↑
	(i) Percentage who travel to work by public transport	◆	×	×	×

TARGET	INDICATOR	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
14b. Improvements to facilities allowing the uptake of sustainable travel (walking/cycling/public transport)	(ii) Net increase/ decrease in rights of way	↑	↔	↔	↔
14c. Year on year increase in the number of people travelling to work by sustainable modes of transport	(i) Number of people travelling to work by public transport	◆	×	×	×
15a. To support low carbon and renewable energy installations	(i) Number of planning applications received and granted consent relating to renewable energy installations	↑	↓	×	×
	(ii) Carbon Dioxide emissions per capita per sector: Total emissions (kt)	↑	×	×	×
15b. Require all new dwellings to achieve water consumption of no more than 110 litres per day per person	3 Percentage of new dwellings meeting the required water consumption standard	×	×	×	×
15c. All new non-residential developments over 1,000	➤ Percentage of new non-residential developments over	×	×	×	×

TARGET	INDICATOR	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
square metres will be expected to achieve the BREEAM 'very good' rating standard.	1,000 square metres which achieve a BREEAM design certificate rating of 'very good'				

Neighbourhood Plans

Newick Neighbourhood Plan

Table 46 Newick Neighbourhood Plan Summary Table of Policy Performance Outcomes

AIM	INDICATORS	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
POLICY HO2, HO3, HO4, HO5					
Deliver a 100 net additional dwellings in the period up to 2030 on the four allocated sites	NNP(a) Net additional dwellings completed on the allocated sites (HO2 – HO5)	↑	↑	↓	↔
	NNP(b) Number of windfall units permitted in/adjacent to Newick village in addition to allocated sites (HO2 – HO5)	↔	↔	↑	↓
	NNP(c) Affordable homes completed on allocated sites (HO2 – HO5)	↑	↓	↔	↔
	NNP(d) Housing type as a percentage	↑	▲	▲	▲
POLICY LE1, LE2					

AIM	INDICATORS	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
Encourage small scale expansion of existing retail and business premises	NNP(e) Net additional floorspace (A and B use classes)	◆	↔	↔	↔
	NNP(f) Net additional floorspace (B1 light industry, B2 and B8) at previous milk processing plant and Rotherfield Wood Timber Yard	◆	↔	↔	↔
POLICY CF1					
Prevent change of use of the village's key community facilities	NNP(g) Net loss/gain (completions) of community services and facilities (D1 and D2) on listed sites (CF1) in the past year (sqm)	◆	↔	↔	↔
POLICY CF2					
Provide additional recreational space and/or equipped play space	NNP(h) Net loss/gain (completions) of recreational space and/or equipped play space (D2) in the past year (sqm)	↑	▲	↔	↔

Ringmer Neighbourhood Plan

Table 47 Ringmer Neighbourhood Plan Summary table of Policy Performance Outcomes

AIM	INDICATORS	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
POLICY 5.1 Employment in Ringmer					
Enhance local employment opportunities in Ringmer village	RNP(a) Loss/change of use of any existing employment (A, B and D use classes) floorspace	↓	↔	↔	↔
	RNP(b) Number of employment site allocations developed	↔	↔	↔	↔
	RNP(c) Net gain/loss of employment (A1, B1 and D2 use classes) floorspace (sqm)	↑	↔	↑	↓
POLICY 5.2 Retail facilities in Ringmer					
Protect and support retail, service, office and leisure uses in Ringmer village	RNP(d) Net loss/gain of retail (A1), office (B1a), leisure (D2) floorspace (sqm)	↑	↔	↑	↓
POLICY 6.4 Total new housing number in Ringmer to 2030					
Level of planned housing in Ringmer village over the Plan Period	RNP(e) Net dwellings granted planning permission on allocated sites (Policy 6.4)	↑	↑	↑	↑
	RNP(f) Net dwellings granted planning permission on non-allocated sites	◆	↓	↑	↔
POLICY 6.2 Affordable housing number and type					

AIM	INDICATORS	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
Ensure the relevant provision of affordable housing	RNP(g) Number of affordable units granted permission on allocated sites (Policy 6.2)	↓	↔	↔	↔
	RNP(h) Housing type of affordable units as a percentage	▲	▲	▲	▲
POLICY 7.2 Ringmer Green & other managed open spaces					
Prevent the loss of managed open spaces	RNP(i) Loss/change of use of allocated managed open spaces (Policy 7.2)	↔	↔	↔	↔
OBJECTIVE SOC6 Ringmer's 'village feel'					
Maintain a vibrant, successful, balanced and inclusive rural community	RNP(j) Proposal granted planning permission contrary to officer recommendation that adversely affect Ringmer Green Conservation Area (overturn at appeal or planning committee)	↔	↔	↔	↔
SA MONITORING INDICATORS					
Protect designated areas	RNP(k) Condition of Plashett Park Wood SSSI	◆	◆	×	×
	RNP(l) Conditions of Lewes Downs SAC	◆	◆	×	×

Wivelsfield Neighbourhood Plan

Table 48 Wivelsfield Neighbourhood Plan Summary table of Policy Performance Outcomes

AIM	INDICATORS	PROGRESS TOWARDS TARGET				
		2017/18	2018/19	2019/20	2020/21	
POLICY 2 Housing in Wivelsfield						
Deliver minimum 30 net additional dwellings in the period up to 2030 on the three allocations sites.	WNP (a) Net dwellings completed on allocated sites (Policy 2)	↔	↔	↔	↔	
	WNP (b) Net affordable homes completed on allocated site Policy 2i.	↔	↔	↔	↔	
	WNP (c) Housing type* (as a percentage) delivered on allocated site Policy 2i.	↔	↔	↔	↔	
POLICY 4 Community facilities in Wivelsfield						
Protect and support community facilities, employment and business uses in Wivelsfield.	WNP (d) Net loss/ gain (sqm completions) of community facilities as listed under i-viii in Policy 4	↔	↔	↔	↔	
	WNP (e) Net loss/ gain of employment and business use (B use classes)	↑	↔	↔	↔	

Hamsey Neighbourhood Plan

Table 49 Hamsey Neighbourhood Plan Summary table of Policy Performance Outcomes

AIM	INDICATORS	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
POLICY H1, H6, H9 Housing growth and development in Hamsey					
Deliver housing in a sustainable manner.	HNP (a) Percentage net dwellings delivered on brownfield land.	◆	↑	✖	↑
	HNP (b) Housing type and mix* (as a percentage) delivered in the last year.	◆	▲	✖	↔
	HNP (c) Net affordable homes completed	◆	↑	↓	↑
	HNP (d) Net housing delivered between 20-30 dph	↑	↑	✖	↔

Plumpton Neighbourhood Plan

Table 50 Plumpton Neighbourhood Plan Summary table of Policy Performance Outcomes

AIM	INDICATORS	PROGRESS TOWARDS TARGET			
		2017/18	2018/19	2019/20	2020/21
POLICY 5 Housing in Plumpton					
Deliver minimum 50 net additional dwellings in the period up to 2030 on the four housing site allocations.	PNP (a) Net dwellings completed on allocated sites (Policies 5.1 – 5.4).	◆	◆	↔	↔
	PNP (b) Housing type and size (as a percentage) delivered on allocated sites.	◆	◆	↔	↔
POLICY 6 & 7 Local Employment and Plumpton Green Village Centre					
Protect and support community facilities, employment and business uses in Plumpton Green.	PNP (c) Net loss/ gain of employment and business use (B use classes) (sqm completions).	◆	◆	↔	↑
	PNP (d) Net loss/ gain of shops or commercial uses (A use classes) (sqm completions).	◆	◆	↔	↔

Seaford Neighbourhood Plan

Table 51 Seaford Neighbourhood Plan Summary Table of Policy Performance Outcomes

AIM	INDICATORS	PROGRESS TOWARDS TARGET	
Objective 1 Housing in Seaford		2019/20	2020/21
To deliver, in the first instance on brownfield sites, high quality new open market and affordable homes that meet the needs of the whole community both now and in the future.	SNP (a) Net dwellings completed		
	SNP (b) Percentage net dwellings delivered on brownfield land.		
	SNP (c) Net affordable homes completed		
	SNP (d) Dwellings granted consent within/outside the planning boundary.		
Objective 10 Tourism in Seaford			
Enhance and maintain the local economy by: (i) supporting employment and businesses in the SNP area and (ii) encourage tourism throughout the parish	SNP (e) Net gain/loss of employment floorspace		

Newhaven Neighbourhood Plan

Table 52 Newhaven Neighbourhood Plan Summary Table of Policy Performance Outcomes

AIM	INDICATORS	PROGRESS TOWARDS TARGET	
Objective 3 Economy and employment		2019/20	2020/21
Help businesses create jobs by;			
supporting refurbishment, adaptation and environmental improvements to attract new employment uses	NHNP (a) Net gain/loss of employment floorspace	◆	↓
supporting development or uses that enhance the visitor experience including recreational and leisure uses	NHNP (b) Net gain/loss of use classes D1/D2	◆	↓
Objective 7 Housing			
Housing development will;	NHNP (c) Net dwellings completed	◆	↑
support the redevelopment of brownfield sites	NHNP (d) Percentage net dwellings delivered on brownfield land.	◆	↓
ensure that development include a suitable mix of housing to meet local needs and provide a range of dwelling sizes	NHNP (e) Net affordable homes completed	◆	↑
	NHNP (f) Housing type and mix* (as a percentage) delivered in the last year.	◆	▲

10 Saved and Retained 2003 LDLP Policies

- 10.9 Following the adoption of Local Plan Part 2, some 'saved' 2003 Local Plan policies relating to Peacehaven have been retained (PT5, PT6, PT9, PT10, PT11, PT12, PT13, PT15, PT17, PT18, PT19, PT20). They will be reviewed and replaced in due course through the Peacehaven and Telscombe Neighbourhood Plan as appropriate.
- 10.10 Since the adoption of Local Plan Part 2 and where neighbourhood plans have been 'made' the below table indicates the policies that they no longer form part of the development plan.

Table 51 Status of the 'Saved' 2003 Local Plan Policies

CORE POLICY	'SAVED' 2003 LOCAL PLAN POLICIES THAT HAVE BEEN REPLACED	'SAVED' 2003 LOCAL PLAN POLICIES TO RETAIN
Spatial Strategy	RES1, RES2, RES3	
CP1 – Affordable Housing	RES9, RES10	
CP2 – Housing Type, Mix and Density	ST3, ST4, ST5, ST6	
CP3 – Gypsy and Traveller Accommodation	RES21, RES22	
CP4 – Encouraging Economic Development and Regeneration	E1, E9	
CP5 – The Visitor Economy	E10, E11, E12, E13, E14, E15, E16, E17, E18, E19	
CP6 – Retail and Sustainable Town and Local Centres	E3, E4, E5, E6, E7, E8, ST3	
CP7 - Infrastructure	ST1, ST2, E8, RES20, RE2, RE3, RE9, RE10, T16	
CP8 – Green Infrastructure	ST3, ST11, RES19, RE1, RE6, RE7, RE9	
CP9 – Air Quality	ST30	
CP10 – Natural Environment and Landscape Character	CT2, CT5, CT1, RE8	
CP11 – Built and Historic Environment and High Quality Design	ST3, ST4, ST11, ST20, ST21, ST25, ST29, RES8, RES13, RES14, RES18, H2, H3, H4, H5, H7, H12, H13, H14, RE8
